041-120-33	2.6	Parks and Recreation	Residential Low	
<b>SPRECKELS</b>				
027-250-05	79.3	Industrial	76.9	Industrial
			2.4	Open Space
027-250-06	76.8	Industrial	61.2	Industrial
			15.6	Open Space
<b>ZAMORA</b>				
055-130-12	4.4	Industrial	Commercial General	

\* For the purposes of the EIR, the above 15.0 acres was analyzed as Commercial General. However, it continues to be shown on the Draft 2030 Countywide General Plan as Agriculture, as the Board of Supervisors has not yet selected which of the two alternative interchanges (I-505/Road 12A or I-505/Road 14) will be selected for Commercial General development.

The net changes in the above table are summarized as follows:

Land Use Designation	Net Acreage Change
Agriculture	-250.8
Public Quasi Public	258.5
Parks and Recreation	23.8
Open Space	-28.2
Specific Plan	382.6
Industrial	-401.6
Commercial Local	-0.1
Commercial General	-11.2
Residential Rural	59.8

Residential Low	-20.8
Residential Medium	-27.1
Residential High	0.5
Roads	14.6

These changes represent a total reduction of 742 housing units, calculated as follows:

Add 60 new homes (+59.8 RR x 1) – 280 homes (-20.8 RL x 10) – 542 homes (-27.1 RM x 20) + 20 homes (0.5 RH x 40).

The bulk of the reduction in units occurs in Esparto. By accurately reflecting land uses in the new subdivisions regarding buffers, detention basins, and parks, there was a reduction of 25.2 acres of RL or 252 units. Similar accurate mapping for a new subdivision in Knights Landing reduced the yield by 88 units. Further refinement of the Deterding mixed use property in Esparto reduced the potential housing yield by 363 units.

As for jobs, there was a decrease of 30.1 acres of CL, CG, and IN land (exclusive of the Covell/Pole Line property which changed from Industrial to Specific Plan). This equates to 482 fewer jobs (at 16 jobs per acre).
