**Fall 2009**

## Meet your Waste Reduction & Recycling Specialist Pam Hedrick

I hope all residents and businesses of the unincorporated areas of Yolo County enjoyed our first edition of the quarterly newsletter and found it informative. I enjoy being involved in putting together the articles and information for the newsletter.

I have only been with the Division of Integrated Waste Management in Yolo County for a year now. I live in Solano County, so this has been a year of learning and growing in appreciation of this fabulous county and its beautiful agricultural landscape.

I feel privileged to be working for a Division that strives to provide many environmentally and economically sustainable services to residents and businesses. I am available to assist you on waste and recycling issues. Feel free to call or email me with any questions, concerns, or ideas.

## A little help from our friends!

**The Good Neighbor Program helps to reduce the impact of illegal dumping.**

Illegal dumping is an ongoing problem in Yolo County. Not only is illegally dumped waste an eyesore, but it often results in environmental hazards created by hazardous materials, such as televisions, sharps, oil, and paint, that are left along the roadside. Many hazardous waste materials are dumped near waterways, at marinas, and along levees, which poses a risk to human and aquatic life. The Roads Division of the Yolo County Planning & Public Works Department spends approximately \$50,000 annually to clean up illegal dumping throughout the unincorporated County.

The Good Neighbor Program allows local residents to pick up roadside litter and help the County keep costs under control. Participants simply pick up items found illegally dumped along the roadside and properly dispose of or recycle these items *free of charge* at the

Yolo County Central Landfill. This program also provides a small incentive for residents to pick up items. When a resident delivers illegally dumped waste that has been picked up along roadsides, he or she is given a \$15 "Good Neighbor" coupon for the Landfill. This coupon can be used when the resident disposes of his or her household waste, allowing a discount on the regular disposal price.

At the Landfill, participants in the program are asked to fill out an affidavit form stating where the materials were found. This allows the County to track the amount of materials and the locations of illegal dumping. **This program is not intended to clean up large, illegal dumpsites or illegal dumping on private property.** The program is intended to clean up small quantities dumped indiscriminately along County roads. This program is *not* currently available at the Esparto Convenience Center.

El programa de Good Neighbor premia a los residentes que recogen la basura de las calles. Los participantes simplemente recogen artículos que han sido ilegalmente tirados en las calles y los llevan al rellano sanitario central del condado de Yolo para que sean tirados o reciclados. No hay ningún cargo por el servicio. Los residentes que hagan esto recibirán un cupón "Good Neighbor" de \$15 como un gesto de apreciación. El cupón es un descuento en el precio regular del servicio de recoger la basura del residente.

Los participantes tendrán que llenar una declaración estipulando dónde encontraron los materiales. **Este programa no tiene como objetivo limpiar grandes áreas donde se ha tirado basura ilegalmente ni basura dejada en propiedades privadas.** El programa tiene la única finalidad de ayudar a limpiar pequeñas cantidades de basura que se encuentra en las calles.

Confío en que todos los residentes y los comerciantes de las áreas no incorporadas al condado Yolo hayan disfrutado la primera edición de nuestro boletín trimestral y que lo hayan encontrado informativo. Me siento honrada de estar trabajando para una división que se esmera en proveer muchos servicios que son ambiental y económicamente costeados para los residentes y los comerciantes. Estoy a sus órdenes para atender cualquier pregunta que tengan sobre la basura y el reciclaje. Por favor siéntanse en la libertad de llamarme o de enviarme un e-mail con sus preguntas, sus preocupaciones o sus ideas.

## Central Landfill now accepts fluorescent bulbs and tubes daily

Since February 2006, fluorescent tubes and bulbs have been banned from disposal with trash in the Landfill. Fluorescent bulbs contain mercury, which can pose environmental and health hazards when disposed of improperly.

As of July 1, 2009, the Yolo County Central Landfill is accepting fluorescents on a daily basis. There is a nominal handling fee of \$2 when you drop off fluorescent tubes and bulbs. The fee is the same whether you bring in one bulb or several. Bulbs will be accepted during normal business hours at the Landfill. Hours are Monday through Saturday, 6:30 a.m. to 4 p.m., and Sunday, 9 a.m. to 5 p.m.

"We believe that the daily acceptance of fluorescent bulbs and tubes will likely decrease the amount of illegally disposed bulbs and tubes," said Yolo County Planning & Public Works Director John Bencomo.

El rellano sanitario del condado Yolo ya está aceptando diariamente artículos fluorescentes. Hay una cuota nominal de \$2 por el manejo de los focos y tubos fluorescentes (la cuota es la misma para uno o para varios focos). Los focos se aceptan de lunes a sábado, de 6:30 a.m. a 4 p.m., y los sábados de 9 a.m. a 5 p.m.

The Yolo County Division of Integrated Waste Management (DIWM) and the incorporated cities in Yolo County are working together to implement a grant awarded by the California Integrated Waste Management Board to establish programs for proper disposal of home-generated medical sharps by Yolo County residents. The DIWM is providing 1-quart biohazard collection containers and pre-paid mail-back containers for sharps disposal. These are available to the public at no charge at locations across the County (see list at right).

If your container is not postage-paid, you can bring the full container to the Yolo County Central Landfill on our Household Hazardous Waste (HHW) drop-off days (see box). Disposal is free to Yolo County residents. For more information about these programs or location hours, visit our website or call (530) 666-8856.

### Pickup Locations for Free Biohazard Containers

- Yolo County Central Landfill, 44090 CR 28H, Woodland
- Clarksburg Library, 52915 Netherlands Rd., Clarksburg
- Esparto Family Practice, 17050 South Grafton St., Esparto
- Davis Senior Center, 646 A St., Davis
- Longs Drugs, 1550 E. Covell Blvd., Davis
- Longs Drugs, 1471 W. Covell Blvd., Davis
- City of West Sacramento Senior Center, 664 Cummins Way
- City of West Sacramento Recreation Center, 2801 Jefferson Blvd.

- Winters Healthcare Foundation, Inc., 23 Main St., Winters

1-Quart Biohazard Container

Pre-Paid Mail-Back Container

La División de Integrated Waste Management del condado Yolo (DIWM) y las ciudades incorporadas al condado Yolo están repartiendo envases de ¼ para la colecta de sustancias tóxicas y paquetes postales con el porte pagado que incluyen envases para desechar las agujas. El público puede conseguirlos gratuitamente en los diferentes centros a lo largo del condado.

Verifique dónde en el texto en inglés de esta publicación. Si su envase no incluye el porte postal, puede entonces llevarlo al rellano sanitario del condado Yolo en los días que se recibe la basura tóxica del hogar. El servicio es gratuito para los residentes de Yolo. Para mayor información, visite nuestra página de Internet o llame al (530) 666-8856.

## Upcoming HHW Drop-Off Days

Yolo County Central Landfill • 44090 County Road 28H, Woodland • 9 a.m. to 2 p.m.

**November 13 & 14 • December 11 & 12**

Las próximas fechas para pasar a dejar la basura tóxica en el rellano sanitario central del condado Yolo, ubicado en 44090 County Road 28H, Woodland, son: noviembre 13-14 y diciembre 11-12. Se aceptarán materiales de 9 a.m. a 2 p.m.

# HELPFUL HINTS for the HOLIDAY SEASON

As the holiday season approaches, you are probably already planning trips and parties. Beginning in November and continuing through Super Bowl Sunday, many people travel, visit relatives, eat big meals, prepare special foods, and give more than a few gifts.

Because of this, the holiday season is often also waste season. It doesn't have to be. Here are some tips to help you have a less wasteful—and more relaxing—winter season.

- **Party Planning** – Know how many people are coming to each event you're hosting and plan the food accordingly. If you have more leftovers than your family can finish, send food home with your guests. Avoid disposable decorations, dishes, cups, and napkins. Instead, reuse old family decorations, your own dishes, glasses, and cups, and reusable cloth napkins. If you don't have cloth napkins, maybe this would be a good time to invest in some. They are inexpensive and can be reused year after year. If you take a gift to your hosts, make sure it is consumable, such as food and drinks, or reusable, like a serving tray.
- **Travel** – Road trips often include disposable food packaging and recyclable drink containers that end up in roadside trash cans. If you're traveling by car, pack snacks (and even lunch) in your own washable, reusable containers. You can put them into a cooler with drinks from home. When you get to your destination, wash your containers. They'll be ready to repack for the trip home. Look for roadside recycling containers, which are available at some rest stops. If you don't find them, put your aluminum, glass, and plastic beverage cans and bottles into a bag or box and recycle them when you get home. If you are flying, look for recycling bins for paper and drink containers in the airport.
- **Gift Giving** – Make a list of everyone to whom you'll give a gift this holiday season. After making the list, decide how much you want to spend on gifts. Now, decide what you would like to give. One budget-conscious and waste-reducing way to give gifts is to shop for gently-used books and other items at secondhand and antique stores. Give reusable gifts, such as washable placemats and cloth napkins, or consumable gifts, such as gift cards to a restaurant or movie. Gift cards for downloadable music are also a great, waste-free idea. Another option is to give of yourself, such as offering to run errands, babysit, take a walk in the woods, or meet for a picnic in the park. You also might consider giving to a good

cause in honor of someone on the list; you can make a card describing the group that has received money or goods in their name. Framed photos make a wonderful gift—you might even be able to make a frame or find a unique used frame. If you choose to buy new gifts, look for items such as jewelry or handmade stationery made from recyclables.

- **Gift Wrapping** – Reuse wrapping paper, gift bags, ribbon, and tags from past years. If you don't have any on hand, make your own wrapping paper by decorating the blank side of brown paper grocery bags; reusing colored sections of newspaper, old maps, or children's artwork; or using fabric, shelf paper, or wallpaper scraps. In other words, begin with items that you already have on hand! Or, "wrap" the gift in a basket or canvas bag that will be reusable later. If you buy wrapping paper, look for paper with recycled-content.
- **Holiday Greetings** – Think about the holiday greetings that your family most enjoys—they are probably the cards or letters that include a personal touch, whether that is newsy notes or fun photos. Consider creating your own letter with family updates and holiday greetings. Of course, print it on recycled-content paper and mail it in recycled-content envelopes. Or, email paperless greetings instead.

This is a great time of year to discuss what really matters most to you, your family members, and friends. During this season of giving, learn what your family and friends really need. You might find that they could use more of your time and attention. Time and attention don't cost money and create significantly less waste than giving them a lot of stuff.

## Buenos Consejos para las Fiestas

Con la cercanía de las fiestas es probable que ya esté planeando viajes y fiestas. Durante los meses de noviembre a febrero, mucha gente viaja, visita parientes, comen en grande, preparan platillos especiales y dan muchos regalos.

Por todas estas cosas, la temporada de las fiestas es también temporada de desperdicio, lo cual es innecesario. Siga estos consejos que le ayudarán a tener menos basura y disfrutar más la temporada del invierno.

- **Planee sus fiestas** – Planee el número de invitados que asistirán a cada una de sus fiestas y prepare la comida necesaria. Si termina con más comida de la que su familia pueda consumir, ofrezca comida a sus invitados para que se lleven a casa. Evite usar productos y decoraciones desechables, tales como platos, vasos y servilletas. En su lugar, use las decoraciones que ya tiene, así como sus platos, vasos, copas y servilletas de telas. Si lleva un regalo a su anfitrión, procure que sea algo que pueda consumir como comida o bebidas, o algo que tenga múltiples usos como una charola para servir.
- **Viajes** – Si viaja en carro, lleve consigo su comida o almuerzo en envases que pueda lavar y usar de nuevo. Póngalos junto con sus bebidas en una hielera. Cuando llegue a su destino, lave los envases para que los tenga listos para el viaje de regreso. Si tiene desechables que tirar, busque los botes para los reciclables que se encuentran en los centros de descanso. Si no los hubiera, llévelos consigo y recíclelos en su casa. Si viaja por avión, busque los botes para los papeles y envases de bebidas reciclables en el aeropuerto.
- **Dar regalos** – Una manera de cuidar el bolsillo y reducir basura es comprar regalos como libros usados o artículos de segunda mano y antigüedades. Obsequie regalos que se puedan volver a usar, tales como mantelitos y servilletas de tela, o regalos para su consumo, tales como tarjetas para restaurantes o el cine. Las tarjetas para bajar música del Internet también son un gran regalo. Otra opción es el regalo de usted mismo, o sea de su tiempo, ofreciendo hacer mandados, cuidar a niños, tomar un paseo por el bosque, o ir de picnic al parque. Considere hacer una donación en nombre de alguien. Los retratos enmarcados hacen un excelente regalo. Si decide comprar regalos nuevos, compre artículos como joyería y papelería hechos a mano con productos reciclables.
- **Envoltura de regalos** – Use el papel envoltura, las bolsas de regalos, los listones y las tarjetas de las fiestas pasadas. Utilice las bolsas de papel estaño, la sección a color del periódico, mapas viejos, los dibujos de los niños, retazos de telas y de papel tapiz para crear sus propias envolturas. Coloque su regalo en una canasta o en una bolsa de tela que pueda volverse a usar. Si necesita comprar papel envoltura busque el que haya sido fabricado con productos reciclables.
- **Tarjetas de felicitación** – Considere escribir una carta de felicitación por la temporada, incluyendo las últimas noticias de la familia. Imprímala y envíela en papel y sobres de contenido reciclable, o considere enviar una tarjeta de felicitación vía e-mail.

Investigue lo que su familia y amigos realmente necesitan durante esta temporada de fiestas. Pueda que descubra que necesitan más de su tiempo y su atención. Estos no cuestan nada y reducen significativamente la basura que se crea cuando se dan un montón de regalos.

# fast facts

## Going Waste-Free

According to WasteFreeLunches.org, packing a waste-free lunch for your child costs about \$2.65 per day, while packing a lunch full of single-serve and disposable items costs \$4.02. Waste-free lunches can save your family \$1.37 per child per day. That's a savings of over \$240 for the school year. The same applies for lunches that adults take to work, but the savings is even greater—as much as \$340 per year. Pack waste-free to save!

## Creating Community

According to Bill McKibben in *Deep Economy: The Wealth of Communities and the Durable Future*, “consumers have ten times as many conversations at farmers’ markets as they do at supermarkets....

When you go to the farmers’ market, in other words, you’re not just acquiring tomatoes; you’re making friends.”

## Overshooting

According to The Global Footprint Network, we reached “Earth Overshoot Day” in mid to late September. This marks “the day when humanity begins using more ecological resources and services in a given year than Earth can regenerate in that year.” From that day on, we are consuming resources that we are, in essence, borrowing from the future. “Put another way, in less than 10 months, humanity will have used ecological services it takes 12 months for the Earth to regenerate.”

## Hechos Interesantes

**Formando Comunidad:** De acuerdo a Bill McKibben en *Deep Economy: The Wealth of Communities and the Durable Future*, “los consumidores tienen diez veces más conversaciones en los mercados de verduras y frutas al aire libre que cuando hacen las compras en el supermercado.... Cuando va de compras al mercado libre, no sólo va a comprar jitomates sino también va a conocer amigos.”

**Rebasando los Recursos:** De acuerdo a la red Global Footprint estaremos alcanzando el temible día de “Earth Overshoot Day” a mediados de septiembre. Esto quiere decir que llegaremos “al día en que la humanidad empezará a utilizar más recursos y servicios ecológicos de los que el planeta Tierra puede regenerar

en un año.” A partir de ese día, estaremos consumiendo recursos que en esencia estamos tomando prestados del futuro.

**Libre de Basura:** De acuerdo a la organización WasteFreeLunches.org, empaquetar el almuerzo de los niños libre de basura cuesta aproximadamente \$2.65 al día, en comparación con \$4.02 por un almuerzo empaquetado con productos desechables. Usted puede ahorrar hasta \$1.37 por niño por día empaquetando almuerzos libres de basura. Eso representa unos \$240 por año escolar. La misma teoría aplica a los almuerzos que los adultos llevan al trabajo, pero el ahorro es aún mayor, aproximadamente \$340 por año. ¡Empaque libre de basura y ahorre!

# Ecological Intelligence

Daniel Goleman explores the relatively new field of Industrial Ecology in his newest book, *Ecological Intelligence* (Broadway Business, 2009). The study of Industrial Ecology focuses on Life Cycle Assessments (LCAs), which guide businesses and consumers in judging the relative impacts of their actions. LCAs explore the environmental impact of each stage of extraction, transportation, and manufacture. LCAs are increasingly used by businesses to make supply-chain, manufacturing, and distribution decisions.

Goleman advocates for what he terms “radical transparency,” which would involve making a large quantity of LCA information available to the average consumer. Much as food products are labeled with nutritional information, a radically transparent consumer product might be labeled with environmental impact information, such as pollution created, energy consumed, human and animal health effects, and non-renewable resource consumption.

Goleman writes, “If we get better, more complete information about the true effects of an item at the moment we are deciding whether to buy it, we could make wiser decisions. Such full disclosure can make each of us an agent for small, gradual changes that, when multiplied by millions, will ripple through the industrial enterprise, from manufacturing and design, through supply chains and transport, to the distant ends of consumption.”

A single glass bottle, from cradle to grave, involves as many as 1,959 separate steps, each with its own environmental impacts. No consumer, no matter how well informed, can be expected to know and evaluate all of this information. Fortunately, there are many organizations devoted to helping consumers make wiser and greener decisions.

To learn more about the ecological impacts of various consumer products, visit these websites: Center for a New American Dream, [www.newdream.org/marketplace/](http://www.newdream.org/marketplace/); Consumer Reports’ Greener Choices, [www.greenerchoices.org/](http://www.greenerchoices.org/); and Good Guide, [www.goodguide.com](http://www.goodguide.com). At your local library, look for books such as *Stuff: The Secret Lives of Everyday Things* by John C. Ryan and Alan Thein Durning.

Several organizations certify certain products as being sustainable or environmentally friendly, including: Forest Stewardship Council (paper and wood products), [www.fscus.org](http://www.fscus.org); Green Seal (cleaning and construction products and services), [www.greenseal.org](http://www.greenseal.org); and USDA Organic (certified organic food products), [www.ams.usda.gov/nop](http://www.ams.usda.gov/nop). Another certification coming soon will be Good Housekeeping’s Green Seal of Approval.

## Inteligencia Ecológica

Daniel Goleman, en su último libro, *Ecological Intelligence* (Broadway Business, 2009), explora este campo que es relativamente nuevo. El estudio de la ecología industrial se enfoca en evaluar el ciclo de vida de los productos (Life Cycle Assessments - LCA), de manera de que sirva como guía para que las empresas y los consumidores puedan juzgar

como sus acciones impactan al medio ambiente.

LCAs se usan cada vez más en los negocios que toman decisiones sobre la cadena de oferta, manufacturación y distribución de productos.

El Sr. Goleman desea que las empresas ofrezcan a los consumidores toda la información posible sobre LCAs. Así como los productos alimenticios tienen información sobre su contenido nutricional, Goleman sugiere que los otros tipos de productos ofrezcan información sobre el impacto que tienen en el ambiente, tal como la contaminación creada, la energía consumida, los efectos en la salud de humanos y animales y el consumo de recursos que no son renovables.

Para aprender más sobre el impacto ecológico de una variedad de productos del consumidor lo invitamos a que visite los siguientes sitios de Internet: Center for a New American Dream, [www.newdream.org/marketplace/](http://www.newdream.org/marketplace/); Consumer Reports’ Greener Choices, [www.greenerchoices.org/](http://www.greenerchoices.org/); y Good Guide, [www.goodguide.com](http://www.goodguide.com). Visite la biblioteca pública y busque libros como *Stuff: The Secret Lives of Everyday Things*, por John C. Ryan y Alan Thein Durning.

Algunas organizaciones como Forest Stewardship Council (productos de papel y de madera), [www.fscus.org](http://www.fscus.org);

Green Seal (productos y servicios de limpieza y construcción), [www.greenseal.org](http://www.greenseal.org); y USDA Organic (productos certificados de comida orgánica), [www.ams.usda.gov/nop](http://www.ams.usda.gov/nop), certifican algunos productos por ser eficientes o beneficiosos para el ambiente. La certificación de Good Housekeeping’s Green Seal of Approval está a punto de recibirse.

# Capay Valley

## Free sharps disposal containers available at Esparto Family Practice

As you saw on the front page, we are partnering with several local organizations to distribute free sharps disposal containers to residents who use syringes, lancets, and other sharps for their in-home medical care. One of these partners is Esparto Family Practice, which is open Monday, 9 a.m. to 1 p.m., and Tuesday through Friday, 2 to 6 p.m.

At the clinic, two types of approved biohazard containers are available for free. Residents who cannot easily get to the Yolo County Household Hazardous Waste drop-off events at the Yolo County Central Landfill should ask for the mail-back sharps containers. Others may request the 1-quart biohazard container that, when full, needs to be dropped off at the monthly HHW event at the Yolo County Central Landfill (for dates, see the front page).

The Esparto Family Practice, which is located at 17050 S. Grafton Street in Esparto, provides health care for adults, teens, and children. They have served the community for 33 years.

"We are pleased to partner with the Esparto Family Practice as they are a valuable resource in our community and are a convenient distribution point for residents," said Marissa Juhler, Waste Reduction and Sustainability Manager.

Nos estamos asociando con organizaciones locales para distribuir gratis a los residentes envases para el desecho de las agujas del hogar, tales como jeringas, lancetas y cualquier otra aguja que sea utilizada en el hogar para cuidados médicos. Uno de nuestros socios es Esparto Family Practice, que abre los lunes de 9 a.m. a 1 p.m., y martes a viernes de 2 a 6 p.m. La dirección de Esparto Family Practice es 17050 S. Grafton Street.

En la clínica, podrá encontrar gratis dos tipos de envases aprobados para el desecho de las sustancias tóxicas. Los residentes que no puedan llegar fácilmente a uno de los eventos pueden solicitar por correo los envases para las agujas. Otros pueden solicitar el envase de ¼ para desecho de sustancias tóxicas y pasar a dejarlos a uno de los eventos mensuales para recoger las sustancias tóxicas del Rellano Sanitario del condado Yolo (fechas disponibles en la primera plana de este boletín.)

# Clarksburg

### PLASTICS

Look for these recycling symbols.

**Plastic beverage or food containers # 1-7 accepted:**

- Soda
- Water
- Milk
- Detergent
- Shampoo bottles
- Frozen food trays

All plastics should be rinsed, empty & lids removed.

No plastic bags, No Styrofoam, No plastic wrap

RECYCLE PLASTIC BAGS at GROCERY STORES

### GLASS

- All beverage & food containers, labels okay
- All colors, lids removed
- Rinsed & empty

No window glass, mirrors, drinking glasses, ceramics, light bulbs, or fluorescent tubes.

### MIXED PAPER

- Newspaper
- Magazines, catalogs & glossy paper
- Brown Paper bags
- Paper packaging
- Junk mail
- Phone books
- All color paper
- Envelopes, with and without windows
- Tag board (cereal boxes and shoe boxes)
- Cardboard—flattened

No hardcover books, paper tissue or paper towels, No paper with plastic coatings, paper with food on it, waxed or foil lined paper or tyvek (non-tearing) envelopes.

Hardcover books can be donated to Goodwill or reuse centers.

### METAL ITEMS

- Tin & Steel cans
- Aluminum cans
- Loose metal lids
- Empty aerosol cans

Todos los residentes y negocios de Clarksburg, incluyendo aquellos que no reciben el servicio de reciclaje, tienen la opción de pasar a dejar sus reciclables al depósito de la comunidad que está situado entre las escuelas de junior high y high school. En ese depósito usted puede pasar a dejar sus envases de plástico (marcados #1-7) para las comidas y las bebidas; botellas y frascos de vidrio, latas de metal y papel mixto.

Clarksburg Area residents and businesses have the option of utilizing the free community drop-off recycling bin located between the junior high and high school.

# Knights Landing

## DUMP USED OIL AND WE ALL GET SOAKED.

RECYCLE YOUR USED OIL AND OIL FILTERS AT ONE OF THE FOLLOWING COLLECTION CENTERS:

CONVENIENT DROP-OFF LOCATIONS IN YOUR AREA:

	Filters Accepted
<b>UNINCORPORATED COUNTY</b> Yolo County Central Landfill, CR 28H & 104 – (530) 666-8729	Yes
<b>CITY OF WOODLAND</b>

- Sundance Express Lube, 420 Pioneer Ave., Woodland – (530) 661-2504 (También aceptan filtros)
- Woodland Tractor Co., 95 W. Kentucky Ave., Woodland – (530) 666-1944 (También aceptan filtros)

# Unincorporated Woodland

## Recycling used oil and filters has never been easier!

When you change your car's oil, don't just recycle the oil. Recycle the drained oil filter, too!

Pick up an oil changing kit for free at:

- Esparto Convenience Center (ECC), 27075 CR 19A, Esparto – Saturday and Sunday, 9:30 a.m. to 5 p.m.
- Yolo County Central Landfill, 44090 CR 28H, Woodland – Monday through Saturday, 6:30 a.m. to 4 p.m., and Sunday, 9 a.m. to 5 p.m.

Deliver your used oil and filter to either of these locations.

No sólo recicle el aceite de su automóvil cuando lo cambia. Recicle también el filtro de aceite que esté bien escurrido. Pase a recoger gratis un juego para cambiar el aceite y lleve el aceite usado y el filtro escurrido a una de estas direcciones: Esparto Convenience Center (ECC), 27075 CR 19A, Esparto, abierto sábados y domingos de 9:30 a.m. a 5 p.m.; Rellano Sanitario del Condado Yolo, 44090 CR 28H, Woodland, abierto de lunes a sábados de 6:30 a.m. a 4 p.m., y domingos de 9 a.m. a 5 p.m.

# Dunnigan

## Holiday recycling

Free Christmas tree recycling is being offered at the Esparto Convenience Center (ECC) from December 26 through January 16. The ECC will accept real, clean, "bare" Christmas trees only. Trees for recycling should be free of ornaments, flocking, tinsel, garland, and lights. Trees should be placed in the wood bin.

The ECC is located at 27075 County Road 19A in Esparto. Hours are Saturday and Sunday, from 9:30 a.m. to 5 p.m. The ECC will be closed Christmas Day and New Year's Day. To call the ECC directly, dial (530) 787-3387.

The holidays are also a time for gatherings and celebrations. Remember to bring in your bottles and cans for recycling. It is convenient and the right thing to do!

Del 26 de diciembre al 16 de enero el Esparto Convenience Center (ECC) estará aceptando los arbolitos de navidad para reciclarlos. Los arbolitos deberán de ser de verdad, estar limpios de cualquier sustancia y sin ni una sola decoración. Favor de quitar todos los adornos, esferas, guirnaldas y luces. Los arbolitos deben dejarse en el cajón de madera destinado para ellos.

El ECC está ubicado en 27075 County Road 19A en Esparto. Horas laborables son sábados y domingos de 9:30 a.m. a 5 p.m. El ECC estará cerrado el Día de Navidad y de Año Nuevo. Llame al centro directamente marcando el (530) 787-3387.

**We want your suggestions, questions and comments!**
