7. Community Concerns

A. Grafton School

Wayne has a meeting with the people for the well at Grafton to discuss the  
well on the property and figure out a solution, to fixing it.

Maria Martinez a former teacher of Grafton school has come before the  
committee to discuss making the school into a charter school. The school  
Superintendent Debra LaVio called Maria Martinez into her office and asked her  
why did Grafton close and her answer was if you don't know, I sure don't have any  
idea. I and two other colleagues have filed the paperwork and have gone around  
asking for signatures to try get support for the school. Debra LaVio has already  
told me we will not receive any money to do this project. You all will have to do this  
all on your own. Its going to be an independent charter school, with the parents  
putting in 30 hours a year for help. We have an open house March 20<sup>th</sup> and 21<sup>st</sup> from  
1:00 to 3:00p.m. It will be a k-6 Science and Technology Academy with Math  
Immersion and English. We will be seeking the authority and we will be running it.  
There will be a Governings Board, no principal, no busing, no money cost. And there  
are no longer any district transfers to Robbins. They are no longer accepting them.  
Mrs Edson Askes will there be any Breakfast or lunch for these children?

Maria Martinez I don't know.
