Dear Janica:

On behalf of the Fairfield Local Census Office, I want to thank you for giving us the use of your space for our training sessions. It was an immense help for us to be able to offer your local Census workers a training location close to home.

Fairfield's Census Office staff has been making every effort to ensure that each resident in our service area is counted. The support of local organizations like yours has enabled us to recruit workers to be trained and work in their own communities. In turn, that will help us reach and count every resident and maximize the potential impact Census statistics can have on your community.

This has been a huge effort and we couldn't have done it without your help.

Warm regards,
