

2010 Annual Inspections  
(Creek Stops)

**1. Pacific Palisades - PG&E (RM 26.9):**

GOALS: Observe concrete blanket: Record current condition, channel stability, and width/depth of erosion. (Staff to check w/ PG&E about plans for a fix – Message to James Morante on 8/18/2010)

**2. County Road 85 Bridge (RM 26.4-26.3):**

GOALS: Inspect bridge foundation. Record areas of scour and deposition.

**3. County Road 87 Bridge (RM 24.4-24.3):**

GOALS: Inspect bridge foundation. Record areas of scour and deposition.

***LUNCH – 11:30 am – Capay Open Space Park***

**4. I-505 Bridge (RM 21):**

GOALS: Inspect bridge foundation. Record areas of scour and deposition.

**5. CEMEX (RM 21-19.3):**

GOALS: Inspect 3 proposed locations (sites D, E, F) for emergency repair/rebuild work. Note areas where possible skimming may be required in the future (DF&G permit needed to begin skimming).

**6. County Road 94B Bridge (RM 15.9-15.8):**

GOALS: Inspect bridge foundation. Record areas of scour and deposition.
