County Staff Present

Duane Chamberlain, Leroy Bertolero, Keith Williams

Agenda Item	Discussion	Outcome
Call to Order	John Davis called the meeting to order at 7:00 pm	
Approval of Minutes	Welcome members of the community	
Public Comment	None	
DISCUSSION ITEMS		
	Proposed issue of county use permit for a temporary Meteorological Tower (Met Tower) located on Agricultural Preserve (A-P) zoned parcel in the Dunning Hills, ca. six miles NW of Zamora (7501 Co. Road 90).	For: Sue, Adele, Jack John Opposed: Rachael, Bill Concern: Wind turbines cause extraordinarily high mortality to bats and birds. We're on the pacific flyway and have nearly the world's population of swainsons' hawks in Yolo County, so high potential for loss of biodiversity. Also cause noise pollution and are unsightly.
PLANNING COMMISSIONER'S REPORT		
	Proposal to create new committee for planning commission representation in 4 regions of Yolo County. Currently there are 9 advisory committees and not enough county staff to attend each one. 2 reps and 2 alternates	Discussion and possible vote next advisory committee meeting for adoption.

	would be appointed by each local committee to serve on the regional committee.
