

PRODUCTION FIELD HISTORY SHEET

Instructions: Fill out this Field History Sheet for all fields (organic, transitional and conventional). You can use your own form as long as it contains the same information. List all inputs, including manure, used or planned for use. Inputs that have already been applied must include the rate and date of application unless you are keeping separate input records. Keep copies for your files. This form should accompany your Organic Farm Plan Questionnaire.

Code: O = Organic; T = In Transition/Conversion to Organic; C = Conventional

Producer Name _____

Code	Field #	Acres	2012 Crop		2011 Crop		2010 Crop		2009 Crop
