LIVESTOCK PASTURE/OUTDOOR AREA HISTORY SHEET

Give the following information on each pasture or paddock used or planned to be used by your organic livestock operation. Code: O = Organic; T = Transition/Conversion to Organic; C = Split operation/Conventional. *Transition/in conversion* means that the pastures are being managed in accordance with organic standards but have not yet met the standard for 36 months without use of prohibited products. Indicate in the # of Animals column the # of livestock intended for that pasture or run. In the Inputs column, list all products that have been applied to the area. Make copies so you can use the same form for 5 years.

| Location A | Address | | | | | | | |
|------------|----------------|-------|-----------------|--------|-----------------|--------|-----------------|--------|
| Code | Pasture No. | Acres | Year | | Year | | Year | |
