Re: Prestar application, Project **ZF #2013-0018** –

Materials for the May 16, 2013 Aviation Advisory Committee Review

To whom it may concern

The attached materials and comment letters are those that were posted for and provided at the Planning Commission meeting of May 9, 2013.

These materials reflect the latest information available for the project.

The proposed project description is as defined in the Planning Commission materials.

The proposed conditions are current, but may change as project review proceeds and as additional comments about them are received, which is typical for all projects.

The Planning Commission continued the item until at least June 13 because of a communication by the FAA after the posting of their agenda, which may bear on the Use Permit, and which requires a County response. The County's response will be made available as soon as it is finalized.

Wes Ervin
Airport Manager
