Healthy Yolo Open House Events Continue Through October

(Woodland, CA) – Healthy Yolo – a process where residents come together to share and understand the specific health concerns and strengths of their community, prioritize public health issues and determine goals and strategies to achieve a healthier Yolo County – continues to conduct Community Open House events through October. Visit www.HealthyYolo.org to see when the next open house event will be in your community.

Healthy Yolo Community Open House events include preliminary information on health issues in Yolo County and provide an opportunity for residents to have a voice in sharing the strengths of their community and prioritizing health issues important to them. Community members unable to visit one of these events are encouraged to take the Health Yolo survey online to share their views on the strengths of their community, the quality of life in their community and what health issues concern them. Residents can also post a message or upload a photo that describes their vision of a healthy community and the values that make up a healthy community.

Additionally, Healthy Yolo has published its first quarterly newsletter to update Yolo County residents on the progress of the program. To view the newsletter or to learn more about Healthy Yolo, visit www.HealthyYolo.org, or contact:
