The Yolo County Health Department is conducting a mass vaccination DRILL on the UC Davis Campus on June 10<sup>th</sup> in response to a HYPOTHEITCAL outbreak of Avian Flu in California with human-to-human transmission. **This is only a drill**. There is currently no documented human-t-human transmission of Avian Flu anywhere in the world.

**Thank You!**

**Categories of urgency levels:**

**Health Alter:** conveys the highest level of importance; requites immediate action to attention.

**Health Advisory:** provides information and guidance for a specific situation; may not require immediate action

**Health Update:** provides updated information for a specific situation; unlikely to requite immediate action
