

Yolo County Anti-tobacco Youth Coalition

Who are we? High school students in Yolo County who are concerned about tobacco in the community.

What do we do?

- Community Service
- Policy work— we help pass laws that will protect the community's health
- Peer education

• Fun!

Cigarette butts are the #1 littered item in America.

What do I get out of it?

- Community service hours
- Looks great on a college application
- Opportunities—meet new people, work with community leaders, public speaking, internships, scholarships
- A chance to make changes in your own community

YUFA STAR member addresses city council on tobacco issues in the community.

YUFA STAR helped make the Yolo County Fair the 1st smoke-free fair in CA.

Why should I care?

Big tobacco companies work endlessly to come up with new products and advertising techniques to recruit **YOU**— new, young tobacco users that will replace the costumers that they kill every day.

YUFA STAR joins hundreds of other youth at the state Capital every year to rally against tobacco.

What is the commitment?

Meetings are every other week or once a month depending on which location you attend. Current locations include Woodland, West Sacramento, Esparto & Winters.

Please contact the Youth Coordinator with any questions or more information: Keri Hess, Kerianne.hess@yolocounty.org
