

Yolo County 2013

The image is a composite graphic titled "Yolo County 2013" and "Agricultural Crop Report". It features a background of a weathered wooden fence. The central element is a stylized "Official Map of the County of Yolo, California". The map is overlaid with several photographs of agricultural products and a rural landscape. The photographs include: a close-up of pink cherry blossoms; a wooden windmill on a hill with a wooden tower; a bunch of ripe blue grapes; a field of bright yellow sunflowers; and a cluster of red tomatoes. The map itself contains various labels such as "R.5W.", "R.4W. COLUSA R.3W.", "R.2W. COUNTY R.1W.", "T.12N.", "T.11N.", "SOLANO CO.", "CITY OF WASHINGTON AND ENVIRONMENTAL", "WARD 2", "WARD 3", "WARD 4", "WARD 5", "WARD 6", "WARD 7", "WARD 8", "WARD 9", "WARD 10", "WARD 11", "WARD 12", "WARD 13", "WARD 14", "WARD 15", "WARD 16", "WARD 17", "WARD 18", "WARD 19", "WARD 20", "WARD 21", "WARD 22", "WARD 23", "WARD 24", "WARD 25", "WARD 26", "WARD 27", "WARD 28", "WARD 29", "WARD 30", "WARD 31", "WARD 32", "WARD 33", "WARD 34", "WARD 35", "WARD 36", "WARD 37", "WARD 38", "WARD 39", "WARD 40", "WARD 41", "WARD 42", "WARD 43", "WARD 44", "WARD 45", "WARD 46", "WARD 47", "WARD 48", "WARD 49", "WARD 50", "WARD 51", "WARD 52", "WARD 53", "WARD 54", "WARD 55", "WARD 56", "WARD 57", "WARD 58", "WARD 59", "WARD 60", "WARD 61", "WARD 62", "WARD 63", "WARD 64", "WARD 65", "WARD 66", "WARD 67", "WARD 68", "WARD 69", "WARD 70", "WARD 71", "WARD 72", "WARD 73", "WARD 74", "WARD 75", "WARD 76", "WARD 77", "WARD 78", "WARD 79", "WARD 80", "WARD 81", "WARD 82", "WARD 83", "WARD 84", "WARD 85", "WARD 86", "WARD 87", "WARD 88", "WARD 89", "WARD 90", "WARD 91", "WARD 92", "WARD 93", "WARD 94", "WARD 95", "WARD 96", "WARD 97", "WARD 98", "WARD 99", "WARD 100".

Crop Report

Yolo County Department of Agriculture and Weights & Measures

"We exist to satisfy the needs of our clients not just to produce an output." (Unknown Author)

Yolo County Strategic Goals

Advance innovation
Champion job creation and economic opportunities
Collaborate to maximize success
Enhance and sustain the safety net
Preserve and ensure safe and crime free communities
Preserve and support agriculture
Protect open space and the environment
Provide fiscally sound, dynamic and responsive services

Department Vision, Mission and Values

Vision

Our vision is to serve agriculture, the business community and the residents of Yolo County, through collaboration and partnership using the most efficient, effective and progressive means available, doing our part to ensure Yolo County has preserved agriculture and is a safe, healthy, and enjoyable environment in which to work, play and live.

Mission

Our mission is to promote and protect Yolo County agriculture and the environment, ensure the health and safety of our residents, and foster confidence and equity in the marketplace through the fair and equitable enforcement of the laws, regulations, and ordinances enacted by the people of the State of California and the County of Yolo.

Values

Employees of the Department of Agriculture and Weights & Measures, in an effort to accomplish the Department's Vision and Mission, share these values in the course of our work and our employment with Yolo County.

Honesty
Integrity
Trust
Enthusiasm
Courtesy
Customer Service
Initiative
Good Stewardship of Scarce Public Resources
Continuous Improvement
Personal and Professional Growth
Respect and Tolerance of the Rights and Beliefs of Others

John Young

AGRICULTURAL COMMISSIONER
SEALER OF WEIGHTS AND MEASURES

July, 2014

Karen Ross, Secretary, California Department of Food and Agriculture and Honorable Board of Supervisors,
County of Yolo

Pursuant to the provisions of Sections 2279 and 2272 of the California Food and Agriculture Code, I am pleased to present the Yolo County Crop Report for 2013. This annual publication summarizes the acreage production and valuation of Yolo County's agricultural commodities. These figures denote gross value of production and do not attempt to reflect net farm income.

The gross value of Yolo County's agricultural production for 2013 was \$721,636,091 an all-time high, and an increase of 12.89% from 2012. This increase reflects overall higher price per unit for commodities and increases in acreage. Nut crops (walnuts and almonds) exhibited marked increases in price per unit from 2012 with combined farm gate values roughly 45% higher for the 2013 cropping season.

Processing tomatoes remain Yolo County's leading commodity with a gross value of \$107,880,514. Although harvested acres were fewer than in 2012, the commodity increased in value due to a slightly increased price for the 2013 cropping season.

Wine grapes, rice, and walnuts remain in the top five commodities according to gross value, with wine grapes moving to the number two position ahead of almonds. Almonds edged into third position in gross value ahead of rice. The gross value of organic production increased by nearly 50% to \$60,112,109 for 2013. Alfalfa, field corn, sunflower seed and wheat round out the top ten commodities for 2013.

I would like to express my appreciation to all the farmers, ranchers, and agencies who contributed data making this report possible. Special recognition for the compilation of this report goes to Jenni King, Leslie Churchill, Cecilia Gonzales, Dennis Chambers, Molly Quisenberry and all the staff that assisted in gathering the information.

To see this or any previous crop reports online, or to learn about the programs and services provided by the Yolo County Department of Agriculture, visit: www.yolocounty.org/ag.

Respectfully submitted,
John Young

Agricultural Commissioner

Sustainable Agriculture Report 2013

Pest Exclusion

Some insects and plant diseases are world renowned for the destruction they cause to agriculture, urban landscapes, and forests. Most of these pests are exotic to Yolo County, and could quickly infest a territory as rich in agriculture as ours. The Agricultural Commissioner's office maintains a diligent Exclusion program to prevent pests from entering our borders. Inspectors keep watch over incoming plant shipments to nurseries, farms, research facilities, box stores, and individuals. In 2013, over 1300 plant shipments were inspected and 293 were rejected for Federal or State Quarantine violations or for live pest finds. Yolo County led the State in pest interceptions at the USPS in California for 2013. Over 100 serious pests were stopped from entering the 20 County delivery area covered by the Postal Sectional Center in West Sacramento. Funding was obtained from State and Federal sources to increase inspections in 2014. In 2013 Yolo County staff inspected 1,140 certified seed fields which amounted to over 29,000 acres. Most fields are inspected twice for diseases of concern and must pass inspection to meet certified seed standards. Yolo County staff work diligently to keep destructive pests and diseases from affecting county agriculture.

Pest Exclusion

Sustainable Agriculture Report 2013

Pest Detection

Yolo County also keeps a comprehensive Detection program, as a second line of defense and early warning system against inadvertent pest introductions. This system of insect trapping identifies foreign pests before they can become established, avoiding major financial and environmental impacts. In 2013, over 1,000 Yolo County residents cooperated to host residential traps for Mediterranean, Oriental, and Melon Fruit Flies; Gypsy Moth, Japanese Beetle, Glassy-winged sharpshooter, and Light Brown Apple Moth. Additional Glassy-winged sharpshooter traps were placed in plant nurseries. European Grapevine Moth and Apple Maggot traps were situated among corresponding host crops. In total, traps were checked 5,000 times by Yolo County Pest Detection Trappers. In 2013, 2 instances of Apple Maggot were intercepted in a limited area. No other targeted insects were detected.

Biological Control

Pest	Agent/Mechanism	Scope of Program
Puncture Vine <i>Tribulus terrestris</i>	Seedhead Weevil <i>Microlarinus lareynil</i>	Countywide

Ash Whitefly <i>Syphoninus phillyreae</i>	Parastic Wasps <i>Encarsia parenopea</i>	Countywide

Community Supported Agriculture (CSA) consists of members or "shareholders" of a farm or garden who cover the anticipated costs of the farm operation and farmer's salary. The consumer joins a CSA program and purchases, in advance, a share of the farm's crop each week, delivered to a predetermined spot, usually near the customer's home or worksite.

Farm to School Yolo

The Yolo County Department of Agriculture is pleased to have completed a successful second year of Farm to School Yolo. The program, under the leadership of Agricultural Commissioner John Young, aims to increase the amount of fresh, local produce served in Yolo County school lunches. It is part of a three-year California Department of Food & Agriculture Specialty Crop Block Grant which also supports the Harvest Hub Yolo website, professional development cooking classes for schools in Yolo County and a farmer workshop on selling to school food service. The program aims to increase school district procurement of California specialty crops from 15 to 35 percent.

The Farm to School Yolo program has also developed a produce aggregation model which allows smaller farms, without the capability of delivering to multiple locations, the opportunity to aggregate their products at one warehouse. The concept increases both the diversity of products and the amount of local foods in school lunches. Year three of the grant will include more school food service staff development classes, another farmer training to further the developing aggregation model and work on a Farm to School guidebook.

Growers, restaurants featuring local produce and producers interested in selling to school food service can contact Farm to School Yolo Outreach Coordinator Kristy Lyn Levings via e-mail: Kristy.levings@yolocounty.org and are encouraged to visit the website: www.harvesthubyolo.org. All are also invited to follow Harvest Hub Yolo on Facebook (www.facebook.com/pages/Harvest-Hub-Yolo/463980273622659) and Twitter (<https://twitter.com/harvesthubyolo>).

2014-15 School Year Harvest of the Month

Month	Featured Fruit	Featured Vegetable
August	Stone Fruit	Zucchini
September	Apples	Tomatoes
October	Pears	Sweet Peppers
November	Persimmons	Cauliflower
December	Citrus	Cabbage
January	Citrus	Endives
February	Citrus	None
March	Dried Fruits & Nuts	Carrots
April	Strawberries	Asparagus
May	Strawberries	Spinach

Pioneer Elementary
4th Place
Taralynn Mitchell
Gibson Elementary

This year's crop report would like to recognize former District 1 Supervisor Mike McGowan. Supervisor McGowan was first elected to the Yolo County Board of Supervisors in November of 1992 and served the Board until December of 2013 when he stepped down to accept an appointment by Governor Brown to become Deputy Director of planning and policy at the California Department of Motor Vehicles.

Mr. McGowan's distinguished career in public service included sitting on the city of West Sacramento City Council and becoming its first mayor in 1987. He has acted as chairman of the Port of West Sacramento Commission, a member of the Yolo County Transportation District Board of Directors, a member of the board of Directors for the Delta Protection Commission and on the West Sacramento Board of Directors for the Veterans of Foreign Wars. He also was an officer of the California State Association of Counties executive committee and was the president of the board of directors in 2012.

Mr. McGowan was instrumental in supporting the agricultural components of the Yolo County General plan which outlines land use, including agriculture preservation and sustainability, for the next thirty years.

He was a leader in supporting the emerging wine industry in Clarksburg, promoting the creation of the Clarksburg appellation district and development of the Old Sugar Mill. He was on the front lines of the Delta debate to protect the conversion of agriculture land that would have dramatically impacted not only the landscape, but the economic viability of the number one industry in the county.

Mr. McGowan's leadership, advocacy of agriculture and service to all those within Yolo County is greatly appreciated.

We wish Mike all the best in his new position and know that he will bring sound leadership, commitment and integrity to his future endeavors.

Board of Supervisors

Supervisor Don Saylor, Chair, District 2
Supervisor Matt Rexroad, Vice-Chair, District 3
Supervisor Oscar Villegas, District 1
Supervisor Jim Provenza, District 4
Supervisor Duane Chamberlain, District 5
