DEPARTMENT OF ALCOHOL, DRUG, AND MENTAL HEALTH

ADULT SPECIALTY MENTAL HEALTH SERVICES

PROGRAM DESCRIPTION:

“Specialty Mental Health Services,” clinic or field based, for Severely Mentally Ill adults. Types of services as defined by Medi-Cal include; assessment, psychotherapy (brief), targeted case management, plan development, collateral, rehabilitation and crisis intervention.

TARGET POPULATION AND ELIGIBILITY INFORMATION:

Target population is Severely Mentally Ill defined by specific diagnosis and medically necessity based on level of functioning. Medi-Cal, Medicare/Medi-Cal or indigent.

APPLICATION PROCESS:

Client attends “orientation” (at the Woodland office) which is an information and patient registration process. Consumers are asked to bring proof of residency, Medi-Cal card and/or proof of income for sliding scale fees (Medi-Cal printout should read county code 57).

Consumers are then provided an assessment appointment with a clinician to complete a bio/psycho/social assessment to help determine target population. All assessments are reviewed by clinical manager for authorization of types/frequency of services offered (as described above). Consumers who are assessed but do not meet target population are referred to community providers or other appropriate service providers.

CLIENTS SERVED:

Approximately 1200 annually.

STAFFING:

Approximately 15 ADMH staff members provide these services (in addition to other staff duties).

CRISIS RESPONSE/ EVALUATION (ALL AGES)

PROGRAM DESCRIPTION:

24 hour phone line response-1-888-965-6647. During non- business hours this number is answered by a contracted agency. Staff provides initial triage to address or stabilize the caller until the next working day. They would also alert PD if warranted for “welfare checks” or immediate risk situations. They would provide information as to how to access non- emergency, out-patient services. A log of all callers is sent to ADMH daily for follow up care and treatment.

During business hours this number is answered by front desk support staff and transferred to Crisis Staff. For calls and walk in, Crisis staff assesses for imminent risk due to a mental disorder and provide appropriate intervention on a continuum from most restrictive (involuntary hospitalization) to least restrictive (use of natural supports).

QUALITY MANAGEMENT (QM) AND DATA ADMINISTRATION (DA) PROGRAM

PROGRAM DESCRIPTION:

The QM Program conducts performance monitoring activities throughout ADMH operations. Activities include reporting Medi-Cal beneficiary and system outcomes, utilization management, utilization review, provider appeals, certification, credentialing and monitoring Medi-Cal providers, and resolution of beneficiary grievances. The vehicle for evaluating recommend policy decisions, the results of QI activities, including performance improvement projects, instituting needed QI actions, and, ensuring follow-up of QI processes is the QI Committee. In addition, the Utilization Management (UM) Program evaluates medical necessity, appropriateness and efficiency of services provided to Medi-Cal beneficiaries prospectively or retrospectively to comply with annual state/federal audits, reviews, and program integrity.

The DA Program supports the development and maintenance of basic data collection and processing activities for clinic/program operations such as new client registrations, client look-ups, admissions and discharges, diagnoses, services provided, billing, Client Services Information (CSI) reporting to State DHCS, and routine reporting for management needs such as caseload lists, productivity reports, and other day-to-day needs. The DA program is responsible for developing and operating an Electronic Health Records documentation system that includes assessments, treatment plans, progress notes, allergy information, lab results, and prescribed medications for direct service practitioners. AVATAR is the MIS/EMR system.

IN-HOME SUPPORTIVE SERVICES

PROGRAM DESCRIPTION:

In-Home Supportive Services provides assistance to eligible aged, blind and disabled individuals, receiving Medi-Cal benefits, who are unable to remain safely in their own homes without assistance. This includes those who would be able, with help, to return to their home from a hospital, nursing home or board-and-care home. IHSS is an alternative to out-of-home care. IHSS provides a wide range of services to meet individual needs, and may include: housecleaning, cooking, laundry, shopping and errands, feeding, dressing, ambulation, bathing, grooming, bowel and bladder care, transferring, accompaniment to medical appointments, monitoring behavior of non-self-directing or mentally impaired people, in order to safeguard injury, and paramedical services with specific limitations. Needs assessment and eligibility determination is performed in the home of the applicant prior to authorization of IHSS and at 12-month intervals thereafter.

TARGET POPULATION AND ELIGIBILITY INFORMATION:

Recipients must be over 65, disabled, or blind, have MediCAL benefits and have their need for IHSS certified by a medical professional. Some disabled children also qualify.

APPLICATION PROCESS:

Any individual can apply. If they do not have MediCAL, an application for benefits is generated. Once benefits are in place and the medical certification is received, the assessment occurs. COMMUNICABLE DISEASE PROGRAM

PROGRAM DESCRIPTION:

There are over 80 reportable diseases in the State of California. Physicians and laboratories are required to report these illnesses to the Health Department. The Communicable Disease Investigator (CDI) enters the information into the State database, conducts structured interviews with the affected persons, and undertakes contact investigations as needed. A contact investigation involves identifying other ill or exposed persons and/or identifying the source of illness. The CDI or public health nurse (PHN) provides advice to prevent further infection, particularly in a facility such as a nursing home or school. If necessary, the Health Officer can issue isolation or quarantine orders to prevent further spread of infection.

MATERNAL CHILD ADOLESCENT HEALTH LOCAL PROGRAM

PROGRAM DESCRIPTION:

The MCAH Local Program includes: Fetal Infant Mortality Review (FIMR), Sudden Infant Death Syndrome (SIDS) Program, Comprehensive Perinatal Services (CPSP), and MCAH Local Priority Area services.

1. FIMR is a community-based program that works to address issues and factors that may affect fetal and infant mortality or morbidity. FIMR is dedicated to improving the services and resources for women, infants, and their families to reduce the occurrence of infant or fetal deaths within the community.
2. SIDS Program provides community outreach on prevention of SIDS, and support in the home environment for families that have suffered a sudden unexplained infant death.
3. CPSP is a voluntary program that seeks to improve the health of low-income pregnant women and to give their babies a healthy start in life, by providing enhanced Medi-Cal reimbursements to CPSP-certified obstetrical providers who implement CPSP protocols in their practices. This program is designed to decrease the number of low-birth weights in babies and improve the outcome of all pregnancies by integrating nutrition, psychosocial, health education assessment, interventions, and perinatal education with basic obstetrical care.
4. The MCAH Local Program works to address priority health and wellness issues impacting Yolo County parents and their children.

TOBACCO CONTROL/ YOUTH TOBACCO PREVENTION

PROGRAM DESCRIPTION:

Under the direction of the California Tobacco Control Program, the Yolo County Tobacco Education Program is dedicated to creating a healthy and smoke-free community. We work on three main priority areas: reducing the public's exposure to secondhand smoke; prevent youth access to tobacco products; counter any positive tobacco promotion/advertising with the truth about Big Tobacco's deceptive marketing practices. We approach these three priority areas by working with the community and elected officials to create policies restricting tobacco access and secondhand smoke exposure including the smoke-free fair, parks, and college campuses. The adult and youth County Tobacco Prevention Coalitions are always on the forefront of tobacco control policy. The program also collaborates with law enforcement to manage Yolo County's and Davis' tobacco retail license ordinance including conducting undercover stings.

TUBERCULOSIS PROGRAM

PROGRAM DESCRIPTION:

The County Health Department supervises treatment for all persons with active tuberculosis (TB) in the county. This is approximately 5 or 6 patients per year. Throughout the 6 to 9 month course of treatment, a PHN is closely involved with the patient. A Community Health Assistant (CHA) or PHN directly observes the patient taking their medication 5 days per week. This is called “DOT” or Directly Observed Treatment”. The TB program also investigates all contacts of a person diagnosed with TB, and follows up on new immigrants who enter the country with risk of TB. Since there is no effective vaccine for TB, assuring completion of treatment and investigating contacts are the only ways to prevent the spread of this disease.

TARGET POPULATION AND ELIGIBILITY INFORMATION:

All TB cases.
