NOTICE OF PUBLIC INFORMATION MEETING REGARDING TWO BRIDGE REPLACEMENT PROJECTS ON COUNTY ROADS 29 & 95

TO: Interested Parties

FROM: Yolo County Planning, Public Works and Environmental Services Department

DATE: October 9, 2015

SUBJECT: Bridge Replacement Projects on County Road (CR) 29 and CR95.

You are invited to a public meeting to discuss the replacement of two bridges, on County Road (CR) 29 over Dry Slough located about 0.75 mile west of the intersection with CR 98, and on CR 95 over Dry Slough located about 300 feet north of the intersection with CR 31. Both projects are in the early stages of the environmental phase.

The bridge located on CR 29 over Dry Slough was built around 1930. The bridge is classified as functionally obsolete. The existing 20 foot wide bridge will be replaced with a 32 foot wide bridge comprised of two 12 feet lanes and 4 feet shoulders. During construction the segment of the road leading to the bridge will be closed to through traffic, a detour route will be provided. Tentatively the bridge is scheduled for construction during the summer of 2019.

The bridge located on CR 95 over Dry Slough was built around 1930. The bridge status is classified as functionally obsolete. The existing 21 foot wide bridge will be replaced with a 40 foot wide bridge comprised of two 12 feet lanes and 8 feet shoulders. During construction a one way signalized temporary crossing will be provided, the temporary crossing will provided the West Plainfield Fire Department access to their southern portion of the fire district. Tentatively the bridge is scheduled for construction during the summer of 2018.

Both projects will be presented to the Transportation Advisory Committee at 4:00 pm on **Thursday, October 22, 2015, 292 West Beamer St. in Woodland.**

Any comments regarding the projects (written, e-mailed, or oral) may be directed to:
