

IF YOU HAVE HAZARDOUS WASTE YOU MUST FOLLOW THESE STEPS:

1. You must have an EPA ID #.
 - Obtain an EPA ID# at www.dtsc.ca.gov/idmanifest
 - Or call (916) 255-1136, press 1, then 3 to speak with someone
2. Call **(800) 207-8222** to schedule an appointment for the drop off of the hazardous waste through Yolo County's business hazardous waste collection program.

(Note: you will need the chemical name or trade name of the waste, the size, type, weight and number of containers being brought to the appointment. Also, you will need to tell how the waste was generated along with any possible contaminants in the waste material when your appointment is scheduled.)

***If you only have universal waste you may call to make an appointment without an EPA ID#.**

Unacceptable Waste

Explosives/Fireworks Radioactive
Infectious medical waste

Business Hazardous Waste Collection Program

CONDITIONALLY EXEMPT SMALL QUANTITY GENERATOR (CESQG)

Federal and State laws require all businesses and industries that generate, store, or accumulate hazardous waste to comply with regulations for proper handling,

Storage, and disposal of these wastes.

Does your business generate hazardous waste?

If you use products that are **corrosive, reactive, toxic or ignitable**, then you probably generate hazardous waste. Many types of businesses and organizations create hazardous waste, including:

- construction and painting contractors
- printers
- equipment or vehicle maintenance shops
- furniture refinishing shops
- laboratories
- dry cleaners
- farms & ranches
- veterinary clinics
- dental offices

Is your business considered a Conditionally Exempt Small Quantity Generator (CESQG)?

To determine whether your business is considered a small quantity generator, estimate the waste you produce each month and inventory the hazardous waste you currently have on hand.

CESQG

Any business generating no more than 220 pounds or 27 gallons of hazardous materials each month.

When registering as a CESQG there are two categories of hazardous waste to consider:

HAZARDOUS WASTE

- oil based paint
- solvents
- chemicals
- pesticides
- automotive fluids
- used oil & filters
- cleaning products

Universal waste

- fluorescent bulbs
- alkaline batteries
- rechargeable batteries
- lithium batteries
- Mercury containing devices
- non-empty spray cans

Accepted Medical Waste

Containerized Syringes (Sharps)

Pharmaceuticals
(non-controlled)
