Celebrating the one-year anniversary of Agency-wide integration. Staff input on the strategic plan goals produced a high response rate and generated a lot of good feedback. There is increased discussion around contracts with providers as staff is holding daily and meetings across departments. The goal is to look closely at contracts to reduce expenses and increase revenue. Looking at each contract individually and reviewing if it is the best use of public dollars. Would like to have open conversations with providers and look at contracts to develop partner-run solutions for increasing efficiency. Regarding space moves, HHS is finishing up the last of the moves at the end of August. Currently in the process of co-locating WIC with eligibility services. There is a new sign that was installed at the front of the Bauer Building.
