YOLO COUNTY'S CONSTRUCTION AND DEMOLITION RECYCLING DEBRIS ORDINANCE

Effective January 1, 2017

STOP!

Before you start your next building project please review the diversion requirements under Ordinance No. 1375; Chapter 16, Title 6 of the Yolo County Code.

On June 24, 2008, the Yolo County Board of Supervisors adopted a Construction and Demolition (C&D) Ordinance that requires construction, demolition and renovation projects to dispose of their job site waste in an environmentally responsible manner. Yolo County's ordinance is in accordance with Assembly Bill (AB) 939.

The Yolo County ordinance is superseded by **CALGreen**—California's Green Building Standards Code. CALGreen promotes environmentally responsible, cost-effective, healthier places to live and work. The CALGreen building code waste diversion requirement as of **January 1, 2017** states that at least 65% of construction materials generated during new construction or demolition projects shall be diverted from the landfill. The County considers the reuse and recycling of C&D debris essential to compliance with AB939.

The Yolo County Landfill Construction /Demolition, Green Waste and Wood Facility helps contractors meet the new State CALGreen requirements. Studies show that nearly 22% of all waste disposed of in California is C&D debris. The reuse and recycling of C&D debris is essential to meet the diversion requirement of 65%.

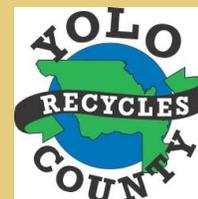

Yolo County Construction & Demolition Recycling Ordinance

	Construction	Demolition	Additions/Alterations/Tenant Improvements
Agricultural	All New	All New	Increase of conditioned area (including roofline changes to a barn) Under CALGreen standards, there are NO exemptions for ag related projects.
Non-Residential	All New	All New	Increase of conditioned area (including roofline changes to a business)
Residential	All New	All New	Increase of conditioned area (incl. roofline changes to a home)
Subdivision	All New	All New	Increase of conditioned area, volume or size

Thrift Store Now Open

The Yolo County Landfill now operates the "Big Blue Recycling Barn" Thrift Store which offers contractors the ability to donate good usable building items, such as doors and windows, for reuse and can obtain a "Reuse Receipt" providing additional diversion credit for their project. For acceptance criteria please contact::
