As part of our Community Planning Process for the next MHSA Three-Year Program and Expenditure Plan (FYs 2017-18, 2018-19, 2019-20), we will hold a focus group specifically for clients and community members interested in the Yolo County Mental Health System.

HHSA Staff and representatives of Resource Development Associates (our consultants) will work with stakeholders to give everyone an opportunity to express their thoughts on the programs and plans for the Mental Health Services Act in Yolo County over the next three years.
