RE: Compliance Order CC0001261 for NDM, LPA ID 5700788

Dear Ms. Brown:

We received your letter dated October 28, 2016, in our offices on November 2, 2016. Within the next 10 business days, we will mail a letter to the residents of North Davis Meadows informing them as required with the sample notifications provided in Attachments A and B of your correspondence. We will also include information for the community of the location of North Davis Meadows' CSA website, where the most current informing notice information will be kept up to date. Further, our water operators, the City of Davis, will continue monthly nitrate sampling on both well sites as well as quarterly samples for aluminum and iron from the same.

The Corrective Action Plan for these violations is already being implemented and is in the interim stages. The CSA is finalizing the contract with the engineering firm selected to prepare the technical documentation and has begun preparing an application for an SRF Construction Loan. By April of 2017, the CSA aims to have SWRCB loan funding in place to begin construction in North Davis Meadows. This project will replace the whole public water system and replace it with a permanent connection to the City of Davis surface water system. The current timeline aims to have construction started in the summer of 2017 and finished before the end of that calendar year.

In sharing this information in a telephone conference with Jianmin Huang, REHS, of your office, she directed that the above information would fulfill the Corrective Action Plan submittal requirement outlined in your notice as item 7. Thus, unless otherwise directed, I will provide an update not later than November 30, 2017 on the status of the "water connection project" that will take the current NDM water system offline.

Due to the tight turn-time on my letter, I am submitting an electronic copy via email for your records on this date. I have also placed a file copy addressed to your business office in the outgoing mail. Please do not hesitate to contact me if we are incorrectly interpreting any directive in the compliance order.

Thank you,

Anna Louzon  
CSA Administrative Support Team  
County of Yolo, County Administrator's Office
