# Health Council as a best practice

## Standard 11.2: Establish effective financial management system.

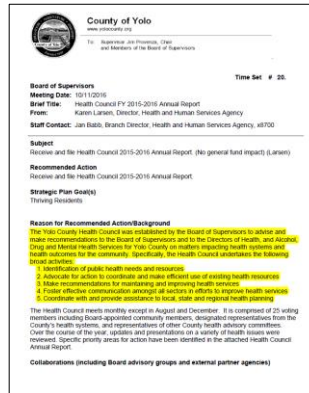

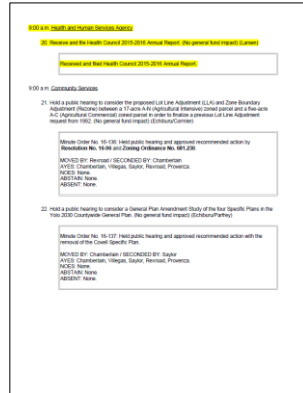

MEASURE	PURPOSE	SIGNIFICANCE	REQUIRED DOCUMENTATION	GUIDANCE	NUMBER OF EXAMPLES	DATED WITHIN
<b>Measure 11.2.4 A</b> Resources sought to support agency infrastructure and processes, programs, and interventions.	The purpose of this measure is to assess the health department's activities to increase financial resources to support its infrastructure and to enhance or develop processes, programs, and interventions.	Additional funding to support public health processes, programs, and interventions should be sought through a variety of means, including budget increase requests, budget revision requests, and grants. Financial resources should be maximized by leveraging current funds to increase resources available for public health.	<ol style="list-style-type: none"> <li>Formal efforts to seek additional financial resources</li> <li>Communications concerning the need for financial support to maintain and improve public health infrastructure and services</li> </ol>	<ol style="list-style-type: none"> <li>The health department must provide grant applications (funded or unfunded) or must document the leveraging funds to obtain additional resources (for example, providing matching funds).</li> <li>The health department must document its communication concerning the need for additional investment in public health. Communication could address a specific issue or address public health in general. Documentation could be, for example, articles or letters to the editor of a newspaper, presentations to the community, or testimony to elected officials. Tribal health department documentation could be, for example, Tribal letters or resolutions of support. Tribal public health assessments for the purpose of demonstrating resources needed, or executive order adding resources.</li> </ol>	<ol style="list-style-type: none"> <li>2 examples</li> <li>2 examples</li> </ol>	<ol style="list-style-type: none"> <li>5 years February 2012</li> <li>5 years February 2012</li> </ol>

# Health Council as a best practice

## Standard 12.3: Encourage the governing entity's engagement in the public health department's overall obligations and responsibilities.

MEASURE	PURPOSE	SIGNIFICANCE	NUMBER OF EXAMPLES	DATED WITHIN
<b>Measure 12.3.1 A</b> Information provided to the governing entity about important public health issues facing the community, the health department, and/or the recent actions of the health department	The purpose of this measure is to assess health department efforts to keep the governing entity informed of public health issues and health department activities.	The health department has a responsibility to communicate with its governing entity to ensure that the governing entity's policies and decisions are informed. A regular flow of information helps to ensure that the governing entity acts in the best interests of the public's health. Information also needs to flow from the governing entity to the health department to ensure mutual understanding of policy options and implications.	2 examples	2 years February 2015
<b>REQUIRED DOCUMENTATION</b> 1. Communication with the governing entity regarding important public health issues and/or recent actions of the health department	<b>GUIDANCE</b> 1. The health department must document communications with the governing entity regarding important public health issues and/or recent actions of the health department. Important public health issues include a population's health status, health indicators, health equity and disparities, disease outbreaks, environmental health hazards, etc.  Documentation could be reports, testimonies, formal meeting minutes, meeting summaries, program updates, reports on identified public health hazards, community health assessment findings, community dashboards, outbreak and response efforts, annual statistical reports, or other written correspondence (memos, emails).			

# Health Council as a best practice

Standard 7.1: Assess health care service capacity and access to health care services.			
<p><b>MEASURE</b></p> <p><b>Measure 7.1.1 A</b></p> <p>Process to assess the availability of health care services</p>	<p><b>PURPOSE</b></p> <p>The purpose of this measure is to assess the health department's participation in a collaborative process to develop an understanding of the population's access to needed health care services.</p>	<p><b>SIGNIFICANCE</b></p> <p>Collaborative efforts are required to assess the health care needs of the population of the Tribe, state, or community. The focus is on the need for primary care, particularly preventive primary care and chronic disease management.</p> <p>Health care services, for access planning purposes, include: clinical preventive services, emergency services, urgent care, occupational medicine, ambulatory care (primary and specialty), and dental treatment.</p>	
<p><b>REQUIRED DOCUMENTATION</b></p> <p>3. Consideration of emerging issues in public health, the health care system, and health care reimbursement</p>	<p><b>GUIDANCE</b></p> <p>3. The health department must document consideration of emerging issues that may impact access to care. These might include changes in the structure of the health care system; types and numbers of health care professionals being trained; changes in reimbursement structure, rates, or payment mechanisms such as accountable care organizations; developing care models, for example, coordinated care organizations or convenient care clinics; and electronic medical records.</p> <p>Documentation could be, for example, meeting minutes, reports, or white papers.</p>	<p><b>NUMBER OF EXAMPLES</b></p> <p>2 examples</p>	<p><b>DATED WITHIN</b></p> <p>5 years</p> <p>February 2012</p>

**Yolo County Health Council**  
**June 9, 2016**  
**Minutes**

MICHAEL WADEN, MD, Chair  
 LINDA HUNTER, VICE-CHAIR

**YOLO COUNTY HEALTH AND HUMAN SERVICES AGENCY**  
 GONZALES BUILDING  
 23 NORTH CORTLANDSON STREET,  
 COMMUNITY ROOM  
 WOODLAND, CA 95665

**Yolo County Health Council** **Minutes – June 9, 2016**

There was a discussion around the Whole Person Care Pilot. This pilot has a complicated financing structure. The County cannot use the Whole Person Care Pilot as a source of new funding. Health and Human Services plans to proceed with applying, but will be very strongly about implementation funding and it will be a smaller scale than originally thought.

**6. BOARD OF SUPERVISORS UPDATE – Emily Henderson, Assistant Deputy to Supervisor Taylor**

- Nothing to report at this time.

**7. COMMUNITY HEALTH BRANCH REPORT – Don Bialik, Community Health Branch Director**

**COMMUNITY HEALTH BRANCH REPORT**

- Karen Larsen was appointed to Health Council as the new Health and Human Services Director.
- The expansion of full scope Medi-Cal to undocumented children took place beginning in May. Undocumented children currently receiving emergency Medi-Cal will transition to full scope Medi-Cal automatically. In addition, Yolo County Children's Advocacy is looking to bring on the Healthy Kids to Action to Medi-Cal.
- Visits around shared a table about the 'Substance' App. The app interfaces with diagnostic systems and will notify community providers when they signed off when someone is sufficient a concern, even so that they can respond and assist. Shared also discussed the app, with several other CAHAP providers discussing next steps. The app has been implemented successfully at the Davis campus, and now is being extended to all of Yolo County. The app has other features such as HED tracking, which will be built out later. In addition, data can be collected from the app such as how many people in Yolo County have downloaded it, how many notifications went out. However, the only way to know if someone notified by a patient responded and assisted will be if it is noted in the ambulance and fire department records.

**PRESENTATIONS**

**8. BIRTHDAY HEALTH – Dr. Marisa Roper & Dr. Fahren Piroviti**

**Report:** [Community Health Branch Report on Birthdays at the Community Health Branch](#)

- Dr. Waden invited the presenters to think about how the Health Council can advocate for these services.
- Dr. Wiken suggested that the Health Council members support larger provider meetings with these presenters to start the discussion around cultural issues and ways to help.

**9. FOLLOW-UP SCALE NUTRITION PROMOTION POWER DISCUSSION – Michael Waden, Chair**

- A subcommittee to address elder nutritional challenges jointly over a May and began to look at some issues to tackle. Brian Hinkle, Richard and others discuss for youth, age associated through in government, housing, commercial outlets and the loss of promotion and advertising. The process is ongoing, so there is not a recommendation to share at this time.

**10. EYER CHAIR AND VICE-CHAIR – Roger Christian**

- The nominating committee met up phone in May. The nomination is for Dr. Wiken and Leslie Hunter for another term in their respective positions of chair and vice chair.
- No other nominations were brought forward.

Member	Board of Supervisors	Board of Health	Board of Directors	Chair	Vice-Chair
Michael Waden					

**11. PEDIATRIC 2016 REPORT TO BOARD OF SUPERVISORS – Michael Waden, Chair**

- The report report is available in the Board of Supervisors room. The report contains the activities of the Health Council, as well as take the opportunity to make recommendations.
- A vote needed for an agenda item for the report for the July 20<sup>th</sup> Board of Supervisors agenda. Michael will do an Aug 17<sup>th</sup>.
- Dr. Waden, working with the identified committees, will prepare the final draft of the report based on current and future discussed by the board.
- Representative for recommendations.

\* Support of the Health and Human Services Agency, Department of Health, Human Services, Valerie Doud

**HHS Community Health Branch Report**  
 June 9, 2016

**ENROLLMENT UPDATE**

Project	April 2016	May 2016	June 2016
Medi-Cal/PMC	12,077	12,180	13,111
Health Plan	14	12	13
CMSP	0	0	0

- The County Medical Services Program (CMSP) provides limited-term health coverage for uninsured low-income adults that are not otherwise eligible for other publicly funded programs. In June 2015, the CMSP Governing Board made important changes to CMSP eligibility and benefits with the goal of increasing enrollment and utilization of services. These new eligibility rules and benefits expansion were made effective May 1 under a 2-year Pilot Project. The changes allow more individuals to be eligible and provides a limited scope primary care benefit to many CMSP recipients, including undocumented residents. Changes include: expansion of CMSP eligibility to cover adults with income up to 300% FPL, waiver or modify the CMSP Asset Test depending upon family income; waive or reduce Share of Cost (SOC) to 70% depending upon family income; revision of the terms of CMSP enrollment to be up to 6 months for all CMSP members; establish a 5-month reactivation CMSP eligibility period for eligible CMSP members.
- In addition, access to primary health care services for CMSP members has been expanded via a 2-year Pilot Project. Benefits include up to 3 combined primary care/secondary care visits, a range of diagnostic tests and up to \$1,000 in prescription drug coverage during each CMSP enrollment term.
- Expansion of Full-Scope Medi-Cal to undocumented children under the age of 19 also took place beginning in May.

**HHS UPDATE**

- Karen Larsen has been appointed Health and Human Services Agency Director. Karen officially assumed the role May 2. Karen joined the Yolo County team in March 2014 as Mental Health Director and Alcohol & Drug Administrator. Previous to Yolo County, Karen was the Director of Behavioral Health Services for Community Health Centers, where she worked for 15 years. She has extensive leadership experience and is a graduate of the UCCE Leadership Institute for leaders working in the safety net. Her leadership project was integrating systems to better serve vulnerable clients.

**HEALTH OFFICER UPDATE**

- As noted in a recent Davis Enterprise article, Davis had five school aged children diagnosed with pertussis. Pertussis typically comes in 3-5 year cycles. Since the last large outbreak in 2014, the number of Pertussis cases in Yolo has steadily decreased. There are no indications that the recent Davis cases are the beginning of an outbreak. The CD team will continue their outstanding surveillance efforts in partnership with local healthcare providers.
- As summer starts getting up, dead birds are already being reported. The risk of West Nile Virus will steadily increase through the summer months. The best prevention is to avoid mosquito bites by adhering to a number of measures such as wearing mosquito repellent, staying indoors at dusk and dawn, and making sure there is no standing water around your residence which will breed mosquitoes.
