Consultants from Resource Development and Associates (RDA) will facilitate the discussion, and much of the ideas and information gathered will be incorporated into Yolo County's MHSA Three-Year Program and Expenditure Plan for FY 2017–2020.

DA Reisig expressed the number one need for this clientele is housing following by dedicated case managers. He explained the rise in human and child sex trafficking population and how severe the mental health issues are for these people. He is hoping to get additional services for these client's through Empower Yolo. Sheriff Prieto expressed the importance of us taking a closer look at programs to assist in services for clients. PD Olson explained this is a population of people that "fall through the cracks" and would require in-patient mental health treatment. She states that when working with the client(s) more often than not, the wait time for mental health beds is so limited that many times you lose contact with the client. Chief Bellini thanked Dr. Chambers for the grant funding he has received to assist officers in serving our mental health population in the community. Chief Cardall mentioned we need to really expand our wrap services to serve the juvenile mental health offenders as well as the adults. Discussion on out of home placement and incarceration of this high risk population is just not working. Dr. Chambers thanked the group for sharing and she will incorporate many of these concerns into our three year planning process.
