## WATER QUALITY EMERGENCY NOTIFICATION PLAN

Name of Facility: \_\_\_\_\_

Physical Location/Address: \_\_\_\_\_

The following persons have been designated to implement the plan upon notification by the Yolo County Environmental Health Division that an imminent danger to the health of the water users exists:

Contact Name & Title	Email Address	Cell/ Emergency Phone
1. _____	_____	_____
2. _____	_____	_____
3. _____	_____	_____

The implementation of the plan will be carried out by the water system with the guidance and oversight of Yolo County Environmental Health Division and assigned SWRCB DDW personnel:

SWRCB & YCEH Division: Contact Name & Title	Business Hours	Telephone	
		After Hours	Emergency
1. <a href="#">Yolo County Environmental Health Department Local Primacy Agency</a>	<a href="#">530-666-8646</a>		<a href="#">530-666-8920</a>
2. <a href="#">Salvador Turrubiarres, Associate Sanitary Engineer SWRCB DDW</a>	<a href="#">916-552-9998</a>		
3. <a href="#">Austin Peterson, District Engineer SWRCB DDW</a>	<a href="#">916-341-5559</a>		

4. If the above personnel cannot be reached, contact:

**Office of Emergency Services Warning Center (24 hrs) (800) 852-7550 or (916) 845-8911**  
When reporting a water quality emergency to the Warning Center, please ask for the State Water Resources Control Board – Division of Drinking Water Duty Officer.

### NOTIFICATION PLAN

Attach a written description of the method or combination of methods to be used (radio, television, door-to-door, sound truck, etc.) to notify customers in an emergency. For each section of your plan give an estimate of the time required, necessary personnel, estimated coverage, etc. Consideration must be given to special organizations (such as schools), non-English speaking groups, and outlying water users. Ensure that the notification procedures you describe are practical and that you will be able to actually implement them in the event of an emergency. Examples of notification plans are attached for TNC/NTNC and small communities.

Report prepared by:

## **Examples of Written Descriptions for Methods of Notification**

### **PLAN I (TNC/NTNC)**

Our population and facility size is very small and the most efficient means of notification will be by issuing public notification by company e-mail, posting public notification at all water access points and verbal communication with potential water users (including visitors) who may not be reached by other methods.

### **PLAN I (Community)**

For our small community, the most efficient method of notification will be door-to-door contact, written handout sheets, or telephone.

The warnings will be issued in both English and Spanish to cover all members of the community. Outlying areas of the water service area or facilities which receive water from our facility will also be notified by the same means of directly distributed warnings to their respective areas.
