Notice of Preparation of an Environmental Impact Report and Notice of Scoping Session for the Dunnigan Valley Travel Center

An Initial Study has been prepared for the proposed project, a 20-acre truck stop, and is attached to this Notice of Preparation (NOP). The Initial Study identifies the location of the project, describes the project characteristics, and lists those issues that will require detailed analysis and technical studies that will need to be evaluated and/or prepared as part of the Environmental Impact Report (EIR).

The EIR will consider potential environmental effects of the proposed project to determine the level of significance of the environmental effect, and will analyze these potential effects to the detail necessary to make a determination on the level of significance. Those environmental issues that have been determined to be less than significant will have a discussion that is limited to a brief explanation of why those effects are not considered potentially significant. In addition, the EIR may also consider those environmental issues which are raised by responsible agencies, trustee agencies, and members of the public or related agencies during the NOP process.

We need to know the views of your agency or organization as to the scope and content of the environmental information germane to your agency's statutory responsibilities or of interest to your organization in connection with the proposed project.

Your response must be sent and received by Yolo County not later than 30 days after you receive this notice. The 30-day review period ends on **June 16, 2017**. If we do not receive a response from your agency or organization, we will presume that your agency or organization has no response to make.

A public scoping meeting will be held during the public review period on June 14, 2017, at 10 a.m. at the Yolo County Community Services Department located at 292 W. Beamer Street in Woodland. If you are interested in the project and want to comment on the potential impacts, please attend the meeting.

If you have any questions, please contact Eric Parfrey, Principal Planner at (530) 666-8043.
