Integrative Pest Management Garden Class June 15

(Woodland, CA) – Are those unwanted critters and bugs getting between you and your garden produce? Come to the Hanna and Herbert Bauer Memorial Garden for a free class on integrative pest management – a low cost and natural approach to reducing unwanted pests in your garden. This class will be held on Thursday, June 15 from 5:15 to 6:30 p.m.

The June 15 class will feature two instructors: Barbara Ohlendorf, a University of California master gardener of Yolo County and David Linebarger, the community garden manager and UC Davis sustainable agriculture program graduate. Participants will learn how to identify beneficial and unwanted pests, determine if pests are becoming a problem and plant certain crops together which can help plant health. There will be time to ask questions and discuss common pest problems in our region.

This class is part of the Yolo County Health and Human Services Agency's Nutrition Education and Obesity Prevention program, which is committed to offering resources and education that help residents eat fresh fruits and vegetables and live healthier lives.

Pre-registration by June 13 is required for the class. To register, contact David Linebarger at (530) 666-8429 or david.linebarger@yolocounty.org. The garden is located at 137 N. Cottonwood Street in Woodland, behind the Yolo County Health and Human Services Agency Bauer Building. Participants are encouraged to dress for warm weather and bring water.

Classes are offered for free throughout the year at the Hanna and Herbert Bauer Memorial Garden. To learn more about the garden activities and classes, visit: www.yolocounty.org/garden.
