- Major Roads
- Secondary

Data Sources:
 Dam inundation boundaries were mapped by dam owners and provided to the Office of Emergency Services, in compliance with California Government Code 8589.5. The maps delineate the area of flooding in the unlikely event of a sudden or total dam failure, with reservoirs at full capacity. The map is considered a contingency measure and does not imply that the dam is unsafe.

Major Roads: Thomas Bros Maps, Inc., local roads removed.
