#### SCORING AND RANKING PROCESS

Subcommittee members received the application packets on Friday, August 25, 2017, and had six (6) days to individually score each project on a 75-point scale. The Subcommittee met as a group on Thursday, August 31, 2017. The Subcommittee conducted a 20 minute interview with each of the applicants to address any questions. Interviews occurred as follows:

- 9:00-9:20- Bill Pride, Davis Community Meals and Housing
- 9:20-9:40- Michele Kellogg and James McLeod, Yolo Community Care Continuum
- 9:40-10:00- Amara Pickens, Yolo Wayfarer Center, dba Fourth and Hope

After the interviews were completed, the Subcommittee reviewed the individual scores of each project and developed aggregate scores for each project. Next, the Committee members decided on a final rank for each project. Tier 1 or Tier 2 placement was determined based on the rank of each project.

The Subcommittee's recommended rank and tier placement for each project are listed below.

Rank	Applicant	Project	Amount	Score
<b>TIER 1</b>				
1	City of Woodland/ 4th and Hope	PSH Consolidated	\$89,159	74.4
2	Yolo Community Care Continuum	SHP	\$144,028	74.2

#### *Project Selection Subcommittee Meeting Notes*

#### **NOTES ON RANKING DETERMINATIONS**

The Subcommittee began the initial discussion regarding the rank of each project by placing all projects in order by score. All six projects scored very closely together (within 6.9 points of each other), and the Subcommittee move up the project ranking for one project based on a discussion about community need.

- The City of Woodland/Fourth and Hope (PSH 2016) project was the highest scoring project (74.4 points). The Subcommittee ranked this project as number 1 (placed in tier 1).
- The Yolo Community Care Continuum (SHP) project was the second highest scoring project (74.2 points). The Subcommittee ranked this project as number 2 (placed in tier 1).
- The City of Woodland/ Fourth and Hope (PSH 2015) project was the third highest scoring project (71.7 points). The subcommittee chose to move this project down in ranking to number 4 (straddling tier 1 and tier 2). The Subcommittee determined that it was essential to ensure that not only Woodland based projects were prioritized in Tier 1, given the geographically distant city placement in Yolo County.
- The City of Woodland/ Fourth and Hope (PSH 2016) was the fourth highest scoring project (71.4 points). The Subcommittee chose to move this project down in ranking to number 5 (placed in tier 2). The Subcommittee determined that because none of the currently operating projects are designated as underperforming, it was critical to fund projects already serving clients, rather than funding a project that is not yet in operations.
- The City of Woodland/ Fourth and Hope (PSH 2014) was the fifth highest scoring project (71.1 points). The Subcommittee chose to move this project down in ranking to number 6 (placed in tier 2). The Subcommittee determined that because none of the currently funded projects are designated as underperforming, it was critical to fund projects already serving clients, rather than funding a new project with the possibility of displacing existing clients.
- The City of Davis/Davis Community Meals (Transitional Housing) was the lowest scoring project (67.5 points). The Subcommittee chose to move this project up in ranking to number 3. The Subcommittee determined that keeping beds available in Davis (the city in Yolo County with the lowest housing vacancy rates) was critical, and that keeping a small number of transitional housing units available in Yolo County was crucial given the high number of unsheltered persons currently living in Yolo County. The current unsheltered count is estimated at approximately 46% of the overall homeless population.
