### **Comments**

Due to an oversight, the operator missed the monthly sampling for the month of June. The facility performed well during the month, did not experience any high flows or overloading, nor issues with any of the remaining sampling.

The preventive and corrective actions taken to preclude this from happening again:

- a) New QA/QC procedures have been put in place regarding the oversight of all required sampling. A newly appointed Compliance Director Erica Rakes is tasked with monitoring and oversight of the Regions sampling programs. The Laboratory Chain of Custody forms will be sent to the Compliance Director when samples are delivered to the lab or picked up by the lab courier.
- b) Outlook calendar has been updated to provide automatic notifications that samples are due to be collected.
- c) Contract laboratories will be required to send the Compliance Director, Plant Manager, and Regional Manager, a notification that samples were received. This acknowledgement will be sent by email.
- d) The facility will be required to provide NOM management a written sampling plan.

**Certification Statement:**

*"I certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."*
