CALIFORNIA ENVIRONMENTAL REPORTING SYSTEM (CERS) CONSOLIDATED EMERGENCY RESPONSE / CONTINGENCY PLAN Prior to completing this Plan, please refer to the INSTRUCTIONS FOR COMPLETING A CONSOLIDATED CONTINGENCY PLAN

A. FACILITY IDENTIFICATION AND OPERATIONS OVERVIEW														
FACILITY ID#							A1.	CERS	ID#	A2.	DATE OF I (MM/DD/Y		PARATION/REVISIO	
BUSINESS NAME (Same as Facility Name or DBA - Doing Business As) A4.														
BUSINESS SITE ADDRESS A5.														
BUSINESS SITE CITY A6. ZIP CODE CA								A7.						
TYPE OF BUSINESS (e.g., Painting Contractor) A8. INCIDENTAL OPERATIONS (e.g., Fleet Maintenance) A9.														
THIS PLAN COVERS CHEMICAL SPILLS, FIRES, AND EARTHQUAKES INVOLVING (Check all that apply): A10. A10.														
1. HAZARDOUS MATERIALS; 2. HAZARDOUS WASTES D INTERNAL DESPONSE														
B. INTERNAL RESPONSE INTERNAL FACILITY EMERGENCY RESPONSE WILL OCCUR BY (Check all that apply): 1. CALLING PUBLIC EMERGENCY RESPONDERS (e.g., 9-1-1) 2. CALLING HAZARDOUS WASTE CONTRACTOR 3. ACTIVATING IN-HOUSE EMERGENCY RESPONSE TEAM														
C. EMERGENCY COMMUNICATIONS, PHONE NUMBERS AND NOTIFICATIONS														
In the event of an emergency is 1. Notify facility personnel and 2. Notify local emergency resp 3. Notify the local Unified Pro 4. Notify the State Warning Co	d evacu oonders ogram A	ate if i by ca Agency	necessar lling 9-1 y (UPA)	y in ac l-1; at the	cordan	ice with	the l	Emergen				e of Regula	tions §3220);	
Facilities that generate, treat, store or dispose of hazardous waste have additional responsibilities to notify and coordinate with other response agencies. Whenever there is an imminent or actual emergency situation such as an explosion, fire, or release, the Emergency Coordinator must follow the appropriate requirements for the category of facility and type of release involved: 1. Title 22 California Code of Regulations §66265.56. Emergency Procedures for generators of 1,000 kilograms or more of hazardous waste in any calendar month. 2. Title 22 California Code of Regulations §66265.196. Response to Leaks or Spills and Disposition of Leaking or Unfit-for-Use Tank Systems. 3. Title 40 Code of Federal Regulations §302.6. Notification requirements for a release of a hazardous substance equal to or greater than the reportable quantity. 4. Title 22 California Code of Regulations §66262.34(d)(2) and Title 40 Code of Federal Regulations §262.34(d)(5)(ii) for generators of less than 1000 kilograms of hazardous waste in any calendar month. Following notification and before facility operations are resumed in areas of the facility affected by the incident, the Emergency Coordinator shall notify the local UPA and the local fire department's hazardous materials program, if necessary, that the facility is in compliance with requirements to: 1. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from an explosion, fire, or release at														
the facility; and 2. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.

H. EARTHQUAKE VULN	NERABILITY				
Identify areas of the facility that are vulnerable to hazardous materials releases due to seismic	motion. These areas require immediate isolation and inspection				
VULNERABLE AREAS (Check all that apply): 1. HAZARDOUS MATERIALS AND/OR WASTE STORAGE AREAS 2. PROCESS LINES AND PIPING 3. LABORATORY 4. WASTE TREATMENT AREA	LOCATIONS (e.g., Shop, outdoor shed, lab): H2.				
Identify mechanical systems vulnerable to releases / spills due to earthquake-related motion. T	hese systems require immediate isolation and inspection				
VULNERABLE SYSTEMS AND/OR EQUIPMENT (Check all that apply): 1. SHELVES, CABINETS AND/OR RACKS 2. TANKS AND SHUT-OFF VALVES 3. PORTABLE GAS CYLINDERS 4. EMERGENCY SHUT-OFF AND/OR UTILITY VALVES 5. SPRINKLER SYSTEMS 6. STATIONARY PRESSURIZED CONTAINERS (e.g., Propane tank)	LOCATIONS: H4.				
I. EMPLOYEE TRA	AINING				
Employee training is required for all employees and/or contractors handling hazardous materia Most facilities will need to submit a separate Training Plan. However, your CUPA may accept Employee training plans may include the following content: • Applicable laws and regulations; • Emergency response plans and procedures; • Safety Data Sheets; • Hazard communication related to health and safety; • Methods for safe handling of hazardous substances; • Hazards of materials and processes (e.g., fire, explosion, asphyxiation); • Hazard mitigation, prevention and abatement procedures; • Coordination of emergency response actions; • Notification procedures for local emergency responders, CUPA, Cal OES, and onsite personnel;					
Charle the applicable haves below to indicate how the applicate training program is administed	rod.				
Check the applicable boxes below to indicate how the employee training program is administe 1. FORMAL CLASSROOM					
 ☐ 6. NOT APPLICABLE SINCE FACILITY HAS NO EMPLOYEES ☐ 7. CHECK IF A SEPARATE EMPLOYEE TRAINING PLAN IS USED AND UPLOAD ☐ 8. CHECK IF EMPLOYEE TRAINING IS COVERED BY THE ABOVE REFERENCEI 	O CONTENT AND OTHER DOCUMENTS ONSITE 14.				
 EMPLOYEE TRAINING FREQUENCY AND RECORDKEEPING TRAINING MUST Provided initially for new employees as soon as possible following the date of hire. Ne hazardous materials handling and/or hazardous waste management without proper training; Provided within six months from the date of hire for new employees at a large quantity gene. Ongoing and provided at least annually; Amended prior to a change in process or work assignment; Given upon modification to the Emergency Response/Contingency Plan. Large Quantity Generator Training: Large quantity generators (1,000 kg or more) must reta. A written description of the type and amount of both initial and ongoing training that will be given waste management and/or emergency response. The name, job title and job description for each position at the facility related to hazardous of Current employee training records must be retained until closure of the facility and former termination of employment. 	w employees should not work in an unsupervised position that involves erator; un written plan and documentation of employee training which includes: iven to persons filling each job position having responsibility for hazardous waste management.				
Small Quantity Generator Training: Small quantity generators (less than 1,000 kg) must procedures but a written employee training plan and training records are not required. In order training requirement, an employee training plan and training records may be made available.					
Hazardous Materials Business Plan Training: Businesses must provide initial and annual en may be based on the job position and training records must be made available for a period of a					
J. LIST OF ATTACHMENTS					
Check one of the following:	л.				
☐ 1. NO ATTACHMENTS ARE REQUIRED; or ☐ 2. THE FOLLOWING DOCUMENTS ARE ATTACHED:	J2.
