Print Name & Title: _____ Signature: _____ Date: _____

**The Environmental Health Specialist has up to 10 business days to review the application.
Application cannot be revised without prior approval from the Environmental Health Division.**

PERMIT EXPIRES TWO (2) YEARS AFTER DATE OF ISSUANCE (UNLESS EXTENDED)

A vicinity map and plot plan drawn to scale with the following information shall be submitted with this application.

Vicinity map and directions to the site: i.e. mile post markers, cross-streets, lock combinations, or any other unique landmarks which help the inspector to locate and access the property. *Site address must be posted at the driveway entrance.*

Scaled plot plan: It must clearly and accurately show the property lines; existing and proposed structures; existing wells, abandoned wells and the proposed well; sewer system and sewer lines; animal feed lots, underground storage tank; septic systems and the replacement areas for the property and the adjoining properties within the 150' radius of the proposed well location; stream, ditch, drainage canal, pond, lake or other water ways within 100' to the proposed well location; the existing or proposed access and driveway approach to the county road to gain access to the project; show equipment/vehicle staging/delivery areas if the project is in close proximity to a county road.

Water Well Construction Permit Conditions

Contractor Acknowledgement

All applicable California State Laws and Yolo County Codes must be abided by on-site contractors including but not limited to the following:

1. Determine whether an encroachment permit will be required from Yolo County Public Works and obtain if applicable.
2. Contractor contacts YCEH for inspection of surface seal.
3. Well location may not be changed without prior approval from YCEH specialist.
4. Bentonite slurries are not approved for material use.
5. Proper containment and disposal of drilling fluid and any other waste products is required.
6. A minimum of 48 hour notice to a live person is required for inspection requests.
7. A Well Completion Report must be submitted to YCEH within 60 days of work completion.
8. Maintain the drilling site and protect adjacent properties and public rights-of-way from damage, illicit discharges, and storm water pollution.

Date

Well Owner Acknowledgement

Your well is not approved for use until all permitting requirements are completed:

1. Owner contacts YCEH for inspection of surface features of completed well.
2. Owner is responsible to have the water tested for total coliform and nitrate analysis (*domestic wells only*).
3. All wells on site that are inoperable and/or out of use more than one year must be abandoned under permit.
