

Notice of Preparation and Notice of Scoping Meeting for the Draft Program Environmental Impact Report for the Yolo County Cannabis Land Use Ordinance

PROJECT: Yolo County Cannabis Land Use Ordinance
LOCATION: Entire unincorporated territory of Yolo County
LEAD AGENCY: Yolo County

Yolo County (County) is the Lead Agency for the preparation and review of the Program Environmental Impact Report (EIR) for the Yolo County Cannabis Land Use Ordinance (Proposed Ordinance or CLUO). The County is considering five alternatives to various sections/components of the Proposed Ordinance, all of which share the same underlying regulatory requirements (available at the web link provided below). The alternatives differ based on allowed cannabis license types, assumed numbers of operations, allowed location based on zoning, controls on overconcentration, and required buffers from identified sensitive uses. Pursuant to Section 15082 of the California Environmental Quality Act Guidelines (State CEQA Guidelines), the County is soliciting the views of interested agencies, organizations, and individuals on the scope and content of the environmental analysis in the EIR. Agencies should comment on the elements of the scope and content of the EIR that are relevant to the agencies' statutory responsibilities, as provided under State CEQA Guidelines Section 15082(b). A summary of the Proposed Ordinance (including the five alternatives) and environmental effects that may result from implementing the ordinance is provided below. The Proposed Ordinance and summary of alternatives are available for review below.
