

Agricultural CROP REPORT

THE NEW COUNTY AGRICULTURAL BUILDING
DEDICATED OCTOBER 6, 1956

*Yolo
County*

1959

County of Yolo

P.O. BOX 175

WOODLAND, CALIFORNIA 95695

(916) 666-8261

CHAS. H. HARDY
COUNTY AGRICULTURAL COMMISSIONER
SEALER OF WEIGHTS AND MEASURES

The Honorable W. G. Jacobsen, Director
California Department of Food and Agriculture
And
The Yolo County Board of Supervisors

| | |
|------------------|--------------------------|
| | John T. Rogers, Chairman |
| J. Fred Johnston | J. W. McDermott |
| Lawrence D. Drew | Clarence Tolle |

Gentlemen:

One of the duties of the Agricultural Commissioner is to compile a report of the condition, acreage, production and value of the crops in his county. As the year draws to a close, the crops have been harvested and an accounting can now be made of the crop yields.

The gross farm value of crops raised in 1959 exceeded by ten percent the 1958 gross income.

This report shows eleven crops with a million dollars or more gross returns and are listed in the order of their monetary value: barley, tomatoes, sugar beets, livestock and livestock products, rice, alfalfa hay, almonds, hybrid corn, grain sorghums, safflower and beans. Rainfall for the crop year was one third below normal, but fortunately, there was sufficient supplemental water available for irrigation.

I wish to express my sincere appreciation to my associates and all others who helped in compiling this annual report as requested by the Agricultural Code.

Respectfully submitted,

Chas. H. Hardy
Agricultural Commissioner

**OFFICIAL DUTIES
OF
THE YOLO COUNTY DEPARTMENT OF AGRICULTURE**

The Yolo County Department of Agriculture headed by the Commissioner, functions under the direction of the State Department and the County Board of Supervisors. Its main purpose is to protect and promote the agricultural industry of the county and state through the regulatory and service functions required by State Law.

Following is a brief summary of the major functions of the department:

1. Plant Quarantine Inspection: -- Inspection of all plant material arriving by mail, express, truck, ship or other modes of transportation to prevent the introduction and spread of injurious insect or animal pests, weeds and plant diseases.
2. Fruits, Nuts, Vegetable, Eggs, Honey Standardization Inspection and Poultry Meat Classification: -- The enforcement of the minimum standards from the producer to the consumer in regard to such requirements as the packing, quality, maturity and container markings of all fruits, nuts, vegetables, eggs, honey and poultry and rabbit meats.
3. Rodent and Pest Animal Control: -- The eradication and control of noxious animals and birds to reduce crop damage and public health menace.
4. Weed Control: -- The eradication of infestation of serious weed pests of limited distribution and control of those of general distribution; regulation of commercial weed control operators and the use of injurious herbicides; cooperation with the State and County Director of Public Works on the control of roadside weeds.
5. Field and Orchard Inspection: -- The detection and identification of pests and recommendation of pests and recommendation of measures used to control insects and plant diseases; the regulation of commercial Agricultural Pest Control Operators and the sale and use of injurious materials.
6. Nursery Inspection: -- The inspection of plant nurseries to detect and prevent the spread of insects and diseases of plants; the recommendation of measures for "clean-up" control and the enforcement of nursery stock grades and standards and labeling laws.
7. Seed Inspection: -- The inspection of all vegetable and agricultural seeds for conformity with State Seed Laws in regards to purity, germination and other requirements, including proper labeling of poison treated seed; cooperation with the University of California in regard to the seed certification program.
8. Apiary Inspection: -- The inspection of beehives for the detection and eradication of American Foul Brood and other serious diseases of bees; the enforcement of other regulations pertaining to honey bees.
9. Crop Reporting: -- Compile reports of the condition, acreage, production and value of the agricultural products in the county.
10. Weights and Measures: -- The inspection and certification of all weighing and measuring devices, enforcement of all regulations, specification and tolerance pertaining to weights and measures, and checking of all containers for net weight content.
11. Dog Control: -- Administration of the State, County and Cities Law pertaining to the licensing and the impounding of all dogs; the maintenance and operations of the County Pound.

###
