Immunization Reporting

Dear California Kindergarten Partners:

On September 10, 2018 we sent a message announcing that immunization reporting for the 2018-2019 school year is now open. Unfortunately, the message was inadvertently and unfortunately encrypted. We apologize for the error and the confusion it has caused. The message will now be in a readable, non-encrypted format; you may discard the encrypted version. Thanks for your patience.

Please send any questions to: shotsforschool@cpdh.ca.gov

Woodland, CA 95695
Service Center (530) 661-2750
Mental Health (530) 666-8630
Public Health (530) 666-8645

LAIV

For the 2018-2019 season, the nasal spray flu vaccine (live attenuated influenza vaccine or “LAIV”) is again a recommended option for influenza vaccination of persons for whom it is otherwise appropriate. The nasal spray is approved for use in non-pregnant individuals, 2 years through 49 years of age. There is a precaution against the use of LAIV for people with certain underlying medical conditions. All LAIV will be quadrivalent (four-component).

Planning Ahead:

Back to School 2019/2020

Starting in the 2019-2020 school year, changes to the California school immunization requirement regulations include, but are not limited to:

- Requiring 2 (rather than 1) doses of chickenpox (varicella) vaccine at
 - Kindergarten entry
 - 7th grade advancement
 - K-12 admission or transfer
- Requiring 2 MMR doses and 3 Hepatitis B vaccine doses at admission or transfer more uniformly throughout K-12 (age restrictions are removed)
- Medical exemptions for new admissions may be signed only by a California-licensed MD/DO
- Each temporary medical exemption may be issued for no more than 12 months

Schools can start preparing for these changes by recording all chickenpox vaccine doses for admissions on the Blue Card or school information system and by compiling lists of (at least) current 5th grade students with no record of a 2nd dose of varicella vaccine.
