Elections Office to Begin Logic and Accuracy Testing and Vote by Mail Ballot Processing

Woodland, CA – The Yolo County Elections Office will begin logic and accuracy testing of the voting equipment on Tuesday, October 30, 2018 at 10:00 a.m. This test will be immediately followed by the beginning of processing of Vote by Mail ballots. Ballot scanning will continue on an ongoing basis through Election Day when results can be tallied and reported on 8:00 p.m. on November 6th. “The Logic and Accuracy Test (LAT) is a verification process that ensures our voting equipment and software are functioning properly. To promote transparency in elections the LAT process and the scanning of ballots are open to the public,” says Jesse Salinas, Yolo County Clerk/Recorder/Assessor and Registrar of Voters. “We welcome visitors to the Elections Office to observe this process.”
