# Agricultural CROP REPORT

Yolo County

1955

WOODLAND, CALIFORNIA 95695

(916) 666-8261

CHAS. H. HARDY
COUNTY AGRICULTURAL COMMISSIONER
SEALER OF WEIGHTS AND MEASURES

TO: W. B. JACOBSEN, DIRECTOR, STATE DEPARTMENT OF AGRICULTURE and THE HONORABLE BOARD OF SUPERVISORS OF YOLO COUNTY

#### Gentlemen:

This annual crop report is required by Section 65.5 of the California Agricultural Code.

The farm values as given for each commodity represents the gross value and in no way should be interpreted as the net farm income received by the producer.

The year proved to be favorable for the growing of crops which in most cases showed a satisfactory grower return. The annual rain fall was normal throughout the year. During the first quarter of the year, there was a dry period followed by timely late spring rains which allowed crops to make a satisfactory recovery. The volume of available water necessary to mature crops in some areas was a limiting factor in the normal irrigation practice since underground water table were lower. The larger crop acreage planted and the higher yield harvested increased the financial returns over the previous year, although some farm commodities were marketed at lower prices.

The field crops listed with the greatest returns in the order of their financial importance were tomatoes, barley, sugar beets, alfalfa hay and rice. The number of livestock marketed from farms showed a financial increase over the previous year, although some market price fluctuations were encountered. The Agricultural crop trend for the coming year appears to be for and increase in the production of hybrid corn, sweet corn, sorghums and safflower.

The cooperation and assistance of all those individuals who helped in compiling this crop report is acknowledged with sincere appreciation.

We announce with a great deal of satisfaction that by Spring, the County Department of Agriculture and the Agricultural Extension Service will occupy the new Agricultural Building located South of the Yolo General Hospital and West of Woodland.

On the cover of this report, the architect's sketch illustrates this building.

We are grateful to the Board of Supervisors and the People of Yolo County for establishing a centralized Agricultural Service Center.

Respectfully submitted,

Chas. H. Hardy Agricultural Commissioner
