

## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este informe contiene información muy importante sobre su agua potable.  
Por favor hable con alguien que lo pueda traducir.

### 1,2,3-Trichloropropane Monitoring Requirements Not Met for Wild Wings County Service Area During Second Quarter 2018

Our water system recently failed to monitor, as required for a drinking water standard, during the second quarter of 2018 and therefore was in violation of the regulations. Although this is not an emergency, as our customers, you have a right to know what happened, what you should do and what we did to correct the situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the second quarter of 2018, we did not collect a 1,2,3-Trichloropropane (1,2,3-TCP) sample from the Pintail well, and therefore, cannot be sure of the quality of our drinking water in regards to 1,2,3 TCP during that time. However, samples taken in the preceding quarter and following quarter showed no detectable amount of 1,2,3-TCP in your drinking water.

#### What should I do?

- There is nothing you need to do at this time. If, however, you have health issues concerning the consumption of this water, you may wish to consult your doctor.
- The table below lists the contaminant we did not properly test for during the calendar year 2018, how many samples we are required to take and how often, how many samples we took, when samples should have been taken, and the date on which follow-up samples were taken.

Contaminant	Required sampling frequency	Number of samples taken	When all samples should have been taken	When samples were taken
1,2,3-TCP	4 quarterly samples	Two to date (1 <sup>st</sup> & 3 <sup>rd</sup> quarters)	Three (during 1 <sup>st</sup> , 2 <sup>nd</sup> & 3 <sup>rd</sup> quarters)	Mar. 23, 2018 Sep. 05, 2018

#### What happened? What is being done?

As the requirement to monitor drinking water for 1,2,3-TCP was new in 2018, the second quarter sample was merely forgotten. The operators of the Pintail well (SUSP) have since implemented a compliance check program which will track all requirement and notify staff when testing is due.

For more information, please contact: SUSP, (916) 283-8520 or [wildwings@suspinc.org](mailto:wildwings@suspinc.org). To view water quality reports, visit: [www.YoloCounty.org/Wild-Wings-CSA](http://www.YoloCounty.org/Wild-Wings-CSA).

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (i.e. renters, employees).

#### Secondary Notification Requirements

Upon receipt of notification from a person operating a public water system, the following notification must be given within 10 days [Health and Safety Code Section 116450(g)]:

- RESIDENTIAL RENTAL PROPERTY OWNERS OR MANAGERS (including nursing homes and care facilities): Must notify tenants.
- BUSINESS PROPERTY OWNERS, MANAGERS, OR OPERATORS: Must notify employees of businesses located on the property.

This notice is being sent to you by Wild Wings County Service Area in compliance with the California Domestic Water Quality and Monitoring Regulations as a means of keeping the public informed.
