Re: Compliance Order CC0001261 for NDM, LPA ID 5700788

On November 7, 2016, Anna Louzon with the County Service Areas (CSA) Administrative Support Team let you know a Corrective Action Plan for these violations was being implemented at that time with finalization of a contract with the engineering firm selected to design the connection of the North Davis Meadows CSA to the City of Davis water system and initiation of an application for State Revolving Fund (SRF) loan for that design work. It was expected at the time, that construction would have started in summer of 2017 and be complete by the end of 2017.

On December 12, 2017, I let you know the County was on this path, and design near complete in August of 2017 for a dual-use connection project in which North Davis Meadows residents would be connected to City of Davis water for indoor uses and remain connected to well water for outdoor uses. Yet, after review by the City of Davis Fire Chief, the project was reconsidered as the Fire Chief recommended all uses be connected to the City of Davis water supply to ensure safe drinking water and adequate fire protection. After further study and a survey of residents, the single-use connection was chosen.

Now, design of the single-use connection and successful Proposition 218 proceedings to repay an SRF loan for all costs related to the project have been completed. An application for an SRF loan was submitted in March of 2018. Regrettably, State review of that application stopped at the end of 2018 until litigation related to the Proposition 218 proceedings is resolved.

We are hopeful there will be resolution of the litigation this spring, the SRF loan application approved a few months after and construction completed by the end of 2019 to provide safe drinking water and fire flow protection to the North Davis Meadows County Service Area.

Should you need additional detail about the project or timeline, please let me know. Residents of North Davis Meadows CSA are regularly kept informed of the project, timeline and current water quality via [www.YoloCounty.org/North-Davis-Meadows-CSA](http://www.YoloCounty.org/North-Davis-Meadows-CSA) and public meetings.

Best regards,

Beth Gabor  
Yolo County Manager of Operations & Strategy
