Ian Evans, Yolo County HHSA, reported that at the January meeting, the board chose to form a subcommittee to work on the 2020/2021 Community Action Plan (CAP) timeline, survey design, and community engagement plan etc. HHSA researched parameters and requirements for the low income needs survey. The subcommittee of three board members met on 2/6/19 to complete the work listed below:

- Low-Income Needs Survey – Revisions were made based on required elements and suggested improvements by subcommittee, aligned with discussion from the January meeting. Ian discussed each of the revisions to the survey which are indicated by red font.
- Revised CAP Timelines – Revisions were made to the CAP Timeline to allow for the survey to be open for a longer period of time.
- Community Engagement Plan – CSAB will utilize a two-pronged approach:
 - Low-Income Needs Survey – Paper and electronic versions of the survey will be available in English, Spanish and Russian. The survey will be available for approximately 4 weeks, from February 28th through March 29th.
 - Community Forums - There are six community forums planned. Maria Chairez proposed moving the Woodland meeting to March 27th at 4 PM at the Yolo County Office of Education. She will contact Yolo County HHSA by Friday if she is able to arrange this. During the community forums, there will be a brief overview of the Community Services Block Grant and relevant data for Yolo County. This will be followed by verbal discussion to obtain public feedback on how best to meet the needs of low income individuals and families in our community. All attendees will also be encouraged to complete the survey.
 - The survey and forum information will be posted via Press Release, Facebook, Twitter, and sent to HPAC, other HHSA partners and group forums, etc. Additionally, CSAB members will distribute the surveys (electronic version, paper version, or both) to various groups. 10. Yolo County Strategic Plan Input

Yolo County develops a strategic plan every three years. The current plan expires 12/31/19 and the County Board of Supervisors is seeking input as they work to develop the next plan which will be in place for 2020 through 2022. To gather input, they developed a six question survey and requested

that CSAB provide a collective response. Each the survey questions shown below was discussed and the group's response was recorded and submitted to the survey contact person.

- a. What is the name of your committee, advisory body or special district?
- b. What is Yolo County's greatest strength and how should the County build on this strength?
- c. What is an area that Yolo County could improve on and how should the County do so?
- d. Based on your field of interest what are the greatest challenges Yolo County will face over the next 3 to 5 years? What do you suggest as the best approaches for the County in tackling these challenges?
- e. Outside of your field of interest, what are the greatest challenges you believe Yolo County will face over the next 3 to 5 years? What do you suggest as the best approaches for the County in tackling these challenges?
- f. Is there additional information or suggestions regarding the Strategic Plan that you would like to share?

11. Teleconference Option

At the January meeting, HHSA was asked to research if CSAB members could attend by teleconference. Kim Heuvelhorst, Yolo County HHSA, reported that as an advisory board to the County Board of Supervisors, CSAB is subject to the Brown Act requirements. HHSA researched this question with County Counsel who indicated that teleconferencing was permitted if it met the teleconferencing requirements of the Brown Act. County Counsel referred us to [Open & Public V: A Guide to the Ralph M. Brown Act](#) which is available on the [County Counsel's website](#) for additional details. Beginning on page 24, it lists the requirements for technological conferencing which include, but are not limited to:

- Each teleconference location must be specifically identified in the notice and agenda of the meeting, including a full address and room number, as may be applicable
- Agendas must be posted at each teleconference location, even if a hotel room or a residence
- Each teleconference location, including a hotel room or residence, must be accessible to the public and have technology, such as a speakerphone, to enable the public to participate
- The agenda must provide the opportunity for the public to address the legislative body directly at each teleconference location

The California Government Code section 54953 is referenced in the Open & Public Guide and the reference was provided during meeting for members who wish to do further research.

12. 2019 CSBG Contract Update

Emily Meza, Yolo County HHSA, reported that the 2019 CSBG contract with the State has been fully executed.

13. Future agenda items

Emily Meza, Yolo County HHSA, inquired about future agenda items that CSAB is interested in, when time allows. The following suggestions were discussed:

- Roberts Rules of Order
- Brown Act
- Presentations from CSBG providers
- Presentation from other organizations or branches of HHSA
- Opportunities to see tangible results from the CSBG funds i.e. success stories.
- Pending or proposed legislation related to CSAB's interest
- Educational presentations about client services and how to access them (homeless, veterans, seniors etc.)
- County strategic plan and vision

A CSAB member inquired if the Brown Act required members to stay at the meeting location until the end of the meeting. HHSA will research this question.

The data provided here is intended to give Service Providers baseline Census data for their CAP Needs Assessment.

Directions: On the following slide, click on the map to filter the data for each County.

Format: Data is organized by county. It is initially displayed from a statewide view, but can be filtered to a county-wide level (Note: Counties with multiple agencies have more than one listing).

Source documentation and explanation of some of the measures used to derive the maps can be found on the Data Dictionary tab. From there, you can identify individual data sources for further research to refine your analysis.

This data is used as a starting point for developing your needs assessment. It is derived from data sources that align to the federal assurances required for the Community Services Block Grant. As this is a starting place, there will need to be analysis utilizing this (or other data sources), community surveys, public hearings to identify the needs of your community and your plans to address those needs.
