

Free Gardening Class!

Plant Propagation for the Backyard Gardener

This class will cover the basics of propagating edible plants for increasing food production

- Learn about starting vegetable seeds in your own “mini-greenhouse.” Participants will create their own mini greenhouse to take home; all materials provided
- Discover the magic of air layering that creates new plants in the soil from existing plants
- Gain an understanding and appreciation for increasing food production that is efficient and cost-effective for you and your family
- Get your questions answered

Wednesday, May 29th
5:15 – 6:30 pm

Hanna and Herbert Bauer Memorial
Community Garden
