

NEW Yolo County & Waste Management Collection & Disposal Services

NEW RATES & CART SIZES (Effective January 1, 2020)

In response to new goals set by CalRecycle to achieve 75% diversion, Yolo County and Waste Management have developed enhanced services for your home. With these new services come rates adjustments and other important information. The biggest change is the addition of organics service for the disposal of yard waste, food waste and food-soiled paper.

New rates will become effective January 1, however organic cart rates will not show up on your bill until after carts are delivered in April. Please see chart for rate breakdown.

With the introduction of organics service, your trash capacity needs may decrease. Waste rates are based on a pay as you throw system which provides financial incentive to downsize your trash cart. After implementation of the new program please contact WM at 530-662-8748 if you wish to change your cart size.
