- This list was compiled for your convenience and is not intended as an endorsement. This list may not be accurate or current.
- Listed certifications may not be inclusive or currently valid: the customer is responsible for verification of professional qualifications.
- Some types of alternative OWTS do not require specific certifications (e.g., pressure-dose only OWTS). Please contact service provider to inquire about your specific needs.
- If the OWTS contains a proprietary unit, YCEH suggests that you also contact the company for a list of regional service providers.

Please visit the Yolo County OWTS OM&M Program Website for more information:
