From: Kristin Weivoda, EMS Administrator
Subject: Paramedic Accreditation and Reaccreditation Policy

Memorandum

In effort to align with other local EMS agencies and best practice guidelines, we have updated our certification requirements for paramedic accreditation and reaccreditation. As of September 1, 2019, we will require initial accreditation and reaccreditation applicants to provide:

- International Trauma Life Support (ITLS), or Prehospital Trauma Life Support (PHTLS)
- Pediatric Advanced Life Support (PALS)

All other accreditation and reaccreditation requirements remain the same.
