## Yolo County Availability and Closures Due to Health Order

(Woodland, CA) – In compliance with the Public Health Order issued on March 18, Yolo County will continue to provide essential services for the public to access, either in person or via phone, with some departments temporarily closing their facilities.

The health order allows for the continued provision of “essential” government functions, as determined by the governmental entity, for the public to access. In response, Yolo County has carefully reviewed department functions and implemented measures to maintain operation of essential services for the public. These measures include the provision of alternative options for access (such as via phone), social distancing between staff and patrons, telecommuting of staff where possible, and the temporary closure of offices deemed non-essential during the designated time period.

The countywide health order for residents to shelter in place starts from March 19 to April 7 is intended to slow the spread of novel coronavirus (COVID-19). While sheltering in place, residents are to refrain from “non-essential” activities such as visiting the landfill, going to fitness facilities or dining in restaurants.

The list of Yolo County Departments and their service availability is as follows:
