

Thank you participating in the YCHC deaccessioning process!

- You will review photographs and collection information for each of the items suggested for deaccession via this **Power Point PDF**.
- You will be casting a preliminary vote on the items to retain, remove, or that you are not sure about via the **Survey Monkey Voting Link**.
- This Collections Power Point is for items to be reviewed before the **March 2020** Collections Committee meeting on -----, *March/April --th at 5:30pm.*

- As you review each item it is helpful to have one window open with the power point images and one internet browser survey to cast your vote.

The screenshot shows the 'Objects Catalog' application window. The 'Object Name' is 'Pan, Muffin' and the 'Accession#' is 'YO1-C431-02A'. The 'Description' field contains: 'Gray enamel muffin pan for 6 muffins. Each cup measures 3 1/4" across by 1 1/2" deep.' The 'Material' is listed as 'Enamel'. To the right, a presentation slide displays four images of the muffin pan. Below the images, the text reads: 'Accession #: YO1-C431-12', 'Medium: Metal/Tin', 'Description: Pudding pan corner, gray enamel pudding cooker', and 'Recommendation: Poor condition, not historically relevant and out of scope'. A survey question asks '1. Should we keep item YO1-C431-12?' with three radio button options: 'Retain', 'Remove', and 'Not Sure'.

- The information about each piece is taken from the Past Perfect database record.
- If you would like to examine an item in person, the curator is able to pull it for the next meeting.
- The next slide starts the power point of items to be reviewed and voted on.
