Don are you all happy about the proposal given by waste management?

Sonny White, I have some real concerns. What brought this on.?

Did this come from the county?

Don those two ladies were from the county.

Don in a technical sense they were, integrated, solid waste through the county through the public works dept is franchising with waste management, which is a private corporation. Waste management is a private not owned by the county. Waste management is franchising with the county to collect the trash.
