

# New Solid Waste & Recycling Services for Yolo County Residents

Dear Resident,

The Yolo County Division of Integrated Waste Management has been working with Waste Management, Inc., your local hauling company, to enhance solid waste and recycling collection services in your neighborhood.

County staff set out to achieve the most environmentally sound program while also reducing rates for residents. We are happy to say that we achieved both of these goals.

On the reverse side of this letter you will find detailed information about your collection enhancements. Under the ordinance each resident outlined in the corresponding maps (dense areas) would need to dispose of their trash weekly either by continuing subscription with Waste Management, Inc. or by self hauling their waste to a proper disposal facility.

We look forward to continuing our commitment to the environment. Should you have any questions please feel free to contact us below.
