**PROJECT TITLE:**

County Road 40 over Cache Creek Bridge (22C-0091) Replacement Project

**PROJECT LOCATION:**

Near the intersection of County Road (CR) 40 and State Route (CA)-16, approximately 5 miles northwest of the unincorporated community of Rumsey (APN 018-270-016)

**PROJECT DESCRIPTION:**

The "project" is the replacement of the existing structurally deficient CR 40 bridge (22C-0091) over Cache Creek with a new three-span, cast-in-place, reinforced concrete slab superstructure. The replacement bridge will be constructed on an improved alignment at essentially the same location as the existing bridge. The purpose of the proposed Project is to increase public safety and provide a bridge that will meet Caltrans and the American Association of State Highway and Transportation Officials (AASHTO) Load and Resistance Factor Design (LRFD) Bridge Design Specifications. The bridge replacement is needed to provide CalFire and other emergency responders access across the creek during wildfires or other emergency events. The proposed bridge is also needed to provide County personnel vehicular access to County lands. The proposed bridge design will provide a minimum freeboard clearance for recreational rafters during the summer irrigation flows.

**PUBLIC REVIEW PERIOD:** A 30-day public review period of the IS/MND will commence **on 9 September 2020, and end on 9 October 2020**, during which interested individuals and public agencies may submit written comments on the document.
