From: Kristin Weivoda, EMS Administrator
John S. Rose, MD, EMS Medical Director

Subject: Rescinded COVID-19 Guidelines and Directives

This COVID-19 update on Guidelines and Directives takes effect on June 15, 2021. It will supersede all prior guidance and directives with the intent to provide a concise document following current state and federal recommendations. Prior COVID-19 Precautions Guidelines and PPE Directives are now rescinded. PPE precautions for all patients must still meet all CDC and CDPH guidance. Dispatch will continue to screen all calls for PPE precaution notifications.

Please do not hesitate to call the EMS/Public Health Duty Officer (530-321-3620), available 24/7, with any questions or concerns that may arise, including while on a scene.
