

# VIRTUAL TRAINING

## Protecting Employees in a Changing World

### NES Live Webinars & Hybrid Training

We all know how challenging and disruptive it has been to live and work through a pandemic. As a proud leader in environmental health & safety compliance, *we immediately recognized the critical importance of adapting our services to protect employees* who attend NES training classes as well as our own staff.

We transitioned programs that had traditionally only been presented in person to *webinars consisting of a live PowerPoint display and instructor-led video feed to facilitate interactivity and demonstrations*, and we set to work improving upon and adding to our existing online program library. As conditions allowed, some training has been conducted in “hybrid” format, with a limited number of students attending in person to allow for proper distancing, while those who prefer to join remotely participate via the simultaneous live webinar video feed. Program materials are provided as electronic downloads, and physical materials can be mailed to participants for no extra charge.

For many, *virtual training has come to be the preferred format over traditional in-person classes*, offering participants the opportunity to learn from the comfort of their homes or office workspaces. As such, having the hybrid option proved to be so popular that we will continue to offer training in this hybrid format into the indefinite future!

Many open enrollment NES programs, and those that have historically been customized to clients’ individual needs and provided on-site at their facilities, are now being presented as webinars. These programs include, but are not limited to:

- 40- & 24-Hour HAZWOPER
- 8-Hour HAZWOPER Refresher
- Hazardous Waste Management
- Hazardous Materials Management
- DOT Hazmat Employee
- Uniform Hazardous Waste Manifest
- Cal/OSHA 30-Hour General Industry
- Bloodborne Pathogens
- Globally Harmonized System
- Hazard Communication
- Respiratory Protection
- Heat Illness Prevention
- Fall Protection
- Hearing Protection
- & More!

### Are you an REHS?

As a CDPH-accredited firm,  
NES course hours convert  
1:1 to contact hours –  
even virtual training!

# NES Self-Paced Online Training

Self-paced online programs offered through our Learning Management System (LMS) allow for progression through the course content at the learner's own pace. Student materials are available to download directly from the program, and students can email an NES instructor with questions at any time!

To view all our web-based course listings (self-paced online programs and live webinars), check out our program listings at [nesglobal.net/online-courses](http://nesglobal.net/online-courses).

## SELF-PACED ONLINE PROGRAMS

- HAZWOPER Refresher
- DOT Hazmat Employee
- Hazardous Waste Management
- Uniform Hazardous Waste Manifest
- Respiratory Protection
- Bloodborne Pathogens
- Confined Space Awareness
- Clandestine Laboratory Safety Refresher

*More Programs in Production for 2021!*
