

October 14, 2021

Hello, my name is [REDACTED] I'm a resident of Knights Landing located in the 5<sup>th</sup> District north of Woodland. I am writing to share that I am against any map that will include the City of Winters into the 5<sup>th</sup> district.

Currently district 5 is the only district to represent an incorporated City and 10 rural towns. Adding the City of Winters would not be equitable in comparison to other areas of the district. No other supervisorial district represents that many towns and cities.

Adding another incorporated City to District 5 would place small rural towns such as Dunnigan, Knights Landing, Esparto, Madison, Yolo, Guinda, and Rumsey at a disadvantage. Many of the resources and attention would be spread too thinly.

Lastly, adding Winters in the 5<sup>th</sup> district will reduce the percentage of Latinos in the district. This is unacceptable and some will argue illegal.

Please keep the district lines similar, make small changes and increase the amount of Woodland residents in the 5<sup>th</sup> District since that is where most of the growth has occurred. Please recommend map drafts #4 and the one submitted by El Concilio.

Thank you for your time and service.
